

Learn more about **Mutual funds**^{TB}

What are mutual funds?

The path to returns. Higher returns are achieved through financial markets than with ordinary deposit products. Mutual funds are the easiest and most popular way to get there.

Professional care for your savings. Millions of people around the world use mutual funds to achieve a higher return on their savings thanks to the constant care of professionals.

Save your time. Don't have enough time to look after your money? Thanks to mutual funds, you can pursue your hobbies and family time while we take care of the rest.

Why invest in mutual funds?

If you want to achieve more, you should earn a profit on your savings. This is exactly what mutual funds can help you accomplish.

Inflation protection. Over the five-year horizon, you definitely want to be able to buy with your savings the same amount that you can buy today. Remember that prices rise in the long run. Is the value of your savings also growing?

Investing is a good way to value money. However, doing it on your own is extremely challenging. Investing in a mutual fund can be easily accomplished by anyone.

How to invest in mutual funds?

Regularly and automatically into mutual funds.

With **Investment saving**^{TB}, you can invest into mutual funds using a simple and flexible tool intended for anyone to regularly invest any amount of money.

When mutual funds are decreasing in value, they are cheaper at that time. And when they begin to rise again they'll bring you more interesting returns. If you can invest during a downturn, you'll make money when the market goes up again.

Give your money enough time to make more money. The average investment period is 5 to 10 years. The longer you invest, the more interesting your returns.

It is absolutely flexible, and it's up to you to choose the settings for your **Investment saving**^{TB}.

You don't have to worry about anything at all, and **you can even try it without any commitments**. Simply via clicking the button **Open new investment savings**.
