

# Investment savings<sup>TB</sup>

- ✓ You can change the monthly amount as well as the savings period at any time for free.
- ✓ Save at least 50 euros a month by taking the advantage of the Reward Program<sup>TB</sup>.
- ✓ Our clients average 50 to 100 euros in savings each month. No matter how many euros you have, you can choose to save smaller amounts.
- ✓ Do you want to save for whatever reason? Choose the option Wealth.
- ✓ Investment savings<sup>TB</sup> is absolutely flexible. You can save as much as you want and as often as you want.
- ✓ You decide when, how much and how often.
- ✓ You can easily change the monthly amount by editing the standing order. Go to the More menu, choose the Account and payments section, and go to Standing orders.
- ✓ Unexpected events? Never mind, you can pause your Investment savings<sup>TB</sup> or withdraw money from it at any time.
- ✓ The average savings period for our clients is 5 to 7 years. The longer you save in the fund, the more likely you are to be happy with the result.
- ✓ If you want to earn more or you have a longer savings period, focus on funds that have two or three dashes next to the fund name.
- ✓ The more dashes, the higher the return – as well as the higher the volatility of the value of your savings.
- ✓ If you want to have more money, increase the monthly amount of savings.
