

Global equity fund^{TB}

Make money from the success of global companies

„Someone is sitting in the shade today because someone planted a tree a long time ago.“

Warren Buffett,
American billionaire

GET RETURN ON THE BUSINESS OF COMPANIES FROM AROUND THE WORLD

The fund is able to earn its return, which is considerably above the level of inflation, by investing in the equities of more than 2,000 companies from around the world.

Investments in equities account for at least 95 % of the fund.

Expected return in 12 years

130 % to 172 %

Minimum investment period

12 years

Risk-return profile

level 4 of 7

Long-term proportion of equities

>95 % of equities

SAVE FOR LONG-TERM GOALS

What would you like to have in 10 or 15 years? Children in college, a new car, a much nicer apartment or just a lot of money.

*The **Global Equity Fund^{TB}** is the solution, especially for regular investments.*

SAVE EFFICIENTLY

Investments in equities are made through low-cost ETF funds.

As a result, the fund has a higher return potential at lower costs.

The fund's expected return over the investment horizon is 7,2 % to 8,7 % p.a. Investing in a mutual fund is also associated with risk. The Statute, Sales Prospectus, and Key Investor Information for mutual fund investors are available in Slovak at Tatra banka, a.s. branches. For the full version of the notice, click [HERE](#).
