Tatra banka, a.s.

INDEPENDENT AUDITOR'S REPORT

To the Shareholders, Supervisory Board and Board of Directors of Tatra banka, a.s. and the Audit Committee:

REPORT ON THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS

Opinion

We have audited the consolidated financial statements of Tatra banka, a.s. (the "Bank") and its subsidiaries (the "Group"), which comprise the consolidated statement of financial position as at 31 December 2023, and the consolidated statement of profit and loss and other comprehensive income, the consolidated statement of changes in equity and the consolidated statement of cash flows for the year then ended, and notes to the consolidated financial statements, including material accounting policy information.

In our opinion, the accompanying consolidated financial statements give a true and fair view of the consolidated financial position of the Group as at 31 December 2023, and its consolidated financial performance and its consolidated cash flows for the year then ended in accordance with International Financial Reporting Standards (IFRS) as adopted in the European Union (EU).

Basis for Opinion

We conducted our audit in accordance with International Standards on Auditing. Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Consolidated Financial Statements* section of our report. We are independent of the Group in accordance with the provisions of Act No. 423/2015 Coll. on Statutory Audit and on Amendment to and Supplementation of Act No. 431/2002 Coll. on Accounting, as amended (hereinafter the "Act on Statutory Audit") related to ethical requirements, including the Code of Ethics for Auditors that are relevant to our audit of the consolidated financial statements, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Description of the most significant assessed risks of material misstatement, including assessed risks of material misstatement due to fraud	Summary of the auditor's response to the risks
<p>Impairment allowances for loans and advances to customers</p> <p><i>Refer to Notes e) 2. and 20 of the consolidated financial statements</i></p> <p>At 31 December 2023, the gross carrying amount of loans and advances to customers (hereinafter the "loans") amounted to EUR 14 351 million, for which impairment allowances for loans and advances to customers (hereinafter the "impairment allowances") were recognised totalling EUR 246 million.</p> <p>For the purpose of estimating expected losses, individual loans are classified into one of three impairment stages, or a Purchased or Originated Credit-Impaired ("POCI") category in accordance with the requirements of IFRS 9 Financial Instruments.</p>	<p>Based on our assessment of the risk and understanding of the industry, we assessed the amount of the impairment allowances, applied methodology and assumptions used to calculate the impairment allowances.</p> <p>We tested the design and operating effectiveness of selected key controls management of the Group has implemented for the impairment assessment and impairment allowance recognition. With the assistance of our IT specialists, we tested IT controls relating to access rights and change management of the relevant IT applications.</p>

This is a translation of the original auditor's report issued in the Slovak language to the accompanying financial statements translated into the English language.

<p>Impairment allowances are determined using statistical models for impairment Stages 1 and 2. Impairment allowances for impaired loans (Stage 3) are calculated for portfolio- and individually-assessed exposures differently:</p> <ul style="list-style-type: none"> • Impairment allowances for portfolio-assessed exposures are based on statistical models, primarily based on the Group's historical data. • Impairment allowances for individually-assessed exposures are determined by estimating probability-weighted discounted future cash flows for each exposure for different scenarios relating to future loan repayments. <p>Group management uses its professional judgment when determining when to recognise an expected loss and in what amount. The most significant judgments when quantifying impairment allowances relate to:</p> <ul style="list-style-type: none"> • Early identification of exposures with a significant increase in credit risk (Stage 2) and credit-impaired exposures (Stage 3); • Assumptions used in statistical models of expected credit losses, such as default probabilities, loss given default and macroeconomic factors considered in the forward-looking information; • Future cash flows for different scenarios relating to future loan repayments; • Probabilities assigned to each future loan repayment scenario for significant exposures; • Loan collateral valuation. <p>The determination of the loan impairment allowance amount is considered to be a key audit matter due to the high level of judgment that management of the Group had to make, particularly in relation to the early identification of exposures with a significant increase in credit risk (Stage 2) and the quantification of impairment allowances for individually-assessed exposures.</p> <p>Given the current geopolitical and macroeconomic situation, the above estimates involve a higher degree of uncertainty and subjectivity of management's judgments.</p>	<p><u>Identification of exposures with a significant increase in credit risk and impaired loans</u></p> <p>We tested system-based and manual controls over the timely classification of loans to the relevant stage. In cooperation with our specialists, we assessed the appropriateness of the Group's methodology and the assumptions for the classification of exposures to individual impairment stages.</p> <p>We assessed the correctness of the classification to individual impairment stages on a sample of the loans.</p> <p><u>Assumptions used for portfolio-assessed exposures</u></p> <p>We assessed the model methodology and internal validation report in cooperation with our specialists. We assessed whether the modelling assumptions, such as the probability of default and loss given default, took into consideration relevant material risks, and whether they were appropriate in the light of historical and forward-looking information, the current economic environment and the position of customers. We assessed the adequacy of the risk parameters used in the calculation of impairment allowances.</p> <p>Due to the high volatility of economic scenarios caused by the current geopolitical and macroeconomic situation, we assessed whether the macroeconomic and other parameters used in the ECL statistical models fairly reflect the expected degree of defaults and recoverability of loans in the future. We assessed the additional management adjustments related to the estimation of expected losses beyond statistical models.</p> <p>We recalculated the key input parameters of the models using historical data on loan migration, defaulted loans and their recoverability.</p> <p><u>Assumptions used for individually-assessed exposures</u></p> <p>On a sample of individually significant exposures:</p> <ul style="list-style-type: none"> • We evaluated the appropriateness of the allowance creation methodology and its application. • Based on available external and internal information, we formed an independent opinion on the required amount of impairment allowances. • We verified the accuracy of the input data used when taking into account specific risk factors. • We verified the accuracy of loan collateral valuation. <p><u>Inclusion of information on future developments in the calculation of expected credit losses</u></p> <p>In cooperation with our specialists, we assessed the macroeconomic scenarios used by management of the Group to estimate adjustments to the probability of default and loss given default (model inputs) in light of expected future economic developments and assessed the appropriateness of the applied approach.</p> <p>The final conclusion was supported by an analysis conducted at the overall portfolio level to identify anomalies in the classification of loans into different impairment stages and other anomalies in the impairment allowance amount calculated by the Group.</p>
--	---

Other Matter

The consolidated financial statements of Tatra banka, a.s. for the year ended 31 December 2022 were audited by another auditor who expressed an unqualified opinion on the consolidated financial statements on 17 February 2023.

Responsibilities of Management and Those Charged with Governance for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with IFRS as adopted in the EU, and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting, unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Group's financial reporting process.

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with International Standards on Auditing will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with International Standards on Auditing, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, actions taken to eliminate threats or safeguards applied.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

REPORT ON OTHER LEGAL AND REGULATORY REQUIREMENTS

Report on Information Disclosed in the Annual Report

The statutory body is responsible for information disclosed in the consolidated annual report prepared under the requirements of the Act on Accounting No. 431/2002 Coll. as amended (the "Act on Accounting"). Our opinion on the consolidated financial statements stated above does not apply to other information in the annual report.

In connection with the audit of consolidated financial statements, our responsibility is to gain an understanding of the information disclosed in the annual report and consider whether such information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit of the consolidated financial statements, or otherwise appears to be materially misstated.

As at the issuance date of the auditor's report on the audit of consolidated financial statements, the annual report was not available to us.

When we obtain the annual report, we will assess whether the Group's annual report includes information whose disclosure is required under the Act on Accounting, and based on procedures performed during the audit of the consolidated financial statements, we will express an opinion on whether:

- Information disclosed in the annual report prepared for 2023 is consistent with the consolidated financial statements for the relevant year; and
- The annual report includes information pursuant to the Act on Accounting.

Furthermore, we will disclose whether material misstatements were identified in the annual report based on our understanding of the Group and its position, obtained in the audit of the consolidated financial statements.

Other reporting obligations as required by Regulation (EU) No. 537/2014 of the European Parliament and of the Council of 16 April 2014 on specific requirements regarding statutory audit of public interest entities

Appointment of the Auditor

We were appointed as the statutory auditor by the Bank's General Meeting on 30 March 2023. The length of our total uninterrupted engagement including previous renewals of the engagement (extensions of the period for which we were appointed) and our reappointments as the statutory auditors is 1 year.

Consistency with the Additional Report to the Audit Committee

Our audit opinion expressed herein is consistent with the additional report prepared for the Bank's Audit Committee, which we issued on the same date as the date of this audit report.

Non-Audit Services

We did not provide the Group with any prohibited non-audit services referred to in Article 5 (1) of Regulation (EU) No 537/2014 of the European Parliament and of the Council of 16 April 2014 on specific requirements regarding the statutory audit of public-interest entities and remained independent of the Bank when conducting the audit.

Other than statutory audit services and services disclosed in the annual report or consolidated financial statements, we provided no other services to the Bank and its controlled undertakings.

Presentation of the Consolidated Financial Statements in Compliance with the Requirements of the European Single Electronic Format ("ESEF")

Management is responsible for the presentation of the consolidated financial statements for the year ended 31 December 2023 included in the Annual Financial Report that complies with the requirements of Commission Delegated Regulation (EU) 2019/815 of 17 December 2018 supplementing Directive 2004/109/EC of the European Parliament and of the Council with regard to regulatory technical standards on the specification of a single electronic reporting format (the "ESEF Regulation"). The presentation of the consolidated financial statements for the year ended 31 December 2023 in electronic XHTML format marked up using the XBRL markup language is expected to be made available to us after the date of this auditor's report.

Our opinion on the consolidated financial statements does not cover the compliance of the presentation of the accompanying consolidated financial statements with the requirements of the ESEF Regulation.

After management provides us with the electronic XHTML format of the accompanying consolidated financial statements marked up using the XBRL markup language, our responsibility will be to perform an engagement in accordance with the International Standard on Assurance Engagements 3000 (Revised), Assurance Engagements Other than Audits and Reviews of Historical Financial Information, with the objective of obtaining reasonable assurance on the compliance of the consolidated financial statements with the requirements of the ESEF Regulation. Our updated auditor's report will either state that based on the procedures performed, the presentation of the consolidated financial statements complies, in all material respects, with the requirements.

Bratislava, 19 February 2024

I. GENERAL INFORMATION

Scope of activities

The Tatra banka consolidated group (hereinafter the "Group") consists of the parent company, Tatra banka, a.s., Bratislava (hereinafter the "Bank" or the "Parent Company") in the legal form of a joint-stock company with its registered office at Hodžovo námestie 3, Bratislava, Slovak Republic, and 6 subsidiaries. The Bank was established on 17 September 1990 in the Slovak Republic and incorporated with the Business Register on 1 November 1990. The identification number of the Parent Company is 00 686 930; the tax identification number is 202 040 8522.

The Group offers a wide range of banking and financial services. Its core activities include receipt of deposits, provision of loans, domestic and cross-border money transfers, provision of investment services and investment activities. The valid list of all of the Group's activities is stated in the Business Register of the Parent Company, its subsidiaries and associates.

The Parent Company's shareholders as a percentage of voting rights:

	2023	2022
Raiffeisen CEE Region Holding GmbH, Vienna	89.11%	89.11%
Other	10.89%	10.89%
Total	100.00%	100.00%

The Parent Company's shareholders as a percentage of subscribed share capital:

	2023	2022
Raiffeisen CEE Region Holding GmbH, Vienna	78.78%	78.78%
Other	21.22%	21.22%
Total	100.00%	100.00%

The Parent Company's shareholders as absolute shares of subscribed share capital:

	2023	2022
Raiffeisen CEE Region Holding GmbH, Vienna	50 678	50 678
Other	13 648	13 648
Total	64 326	64 326

The Parent Company performs its activities in the Slovak Republic through its 77 branches, corporate centres and corporate centre sub-agencies and 56 branches of the Organisational Unit of Raiffeisen Bank. In addition, the Group has 7 Tatra Leasing branches.

The Parent Company's ordinary shares are publicly traded on the Bratislava Stock Exchange.

Rent GRJ, s.r.o.	-	100%	Tatra-Leasing, s.r.o.	36 804 738	Lease	Full consolidation method	Bratislava
Rent PO, s.r.o.	-	100%	Tatra-Leasing, s.r.o.	35 823 267	Lease	Full consolidation method	Bratislava
Tatra Leasing Broker, s.r.o.	11.3%	100%	Tatra-Leasing, s.r.o.	44 426 682	Lease	Full consolidation method	Bratislava

Changes in the Group during 2023

As at the effective date, 2 March 2023, Rent PO, s.r.o. and Rent GRJ, s.r.o. merged. Rent PO, s.r.o. became the legal successor.

Notes to the Consolidated Financial Statements for the Year Ended 31 December 2023

Prepared in Accordance with International Financial Reporting Standards
as Adopted by the European Union (in thousands of EUR)

Distribution of the Parent Company's profit for 2022 and payment of dividends

Dividends – ordinary shares	87 584
Dividends – preference shares	11 497
Payment of proceeds from AT1 Investment Certificate *	7 467
Contribution to retained earnings of previous years	87 291
Total	193 839

*Proceeds from AT1 Investment Certificate will be paid in accordance with the issue conditions of the instrument.

A dividend per ordinary share with a face value of EUR 800 amounted to EUR 1 232.
A dividend per ordinary share with a face value of EUR 4 000 amounted to EUR 6 160.
A dividend per preference share with a face value of EUR 4 amounted to EUR 6.17.

The separate and consolidated financial statements for 2022, the Annual Report for 2022, the distribution of profit, retained earnings and the determination of royalties to the members of the Supervisory Board for 2022 were approved by the Parent Company's General Meeting held on 30 March 2023. Dividends for which no entitlement arose as at the date of the General Meeting amounted to EUR 275 thousand and were recognised in retained earnings of previous years.

Regulatory requirements

The Group is subject to the regulatory requirements of the National Bank of Slovakia, which include limits and other restrictions pertaining to minimum capital adequacy requirements, provisioning to cover credit risk, liquidity, interest rates and foreign exchange position of the Group.

Impact of the situation in Ukraine

Given the minimum amount of exposure to entities from Russia, Belarus and Ukraine (gross carrying amount of exposures to entities from Russia, Belarus and Ukraine as at 31 December 2023 was EUR 1 134 thousand; as at 31 December 2022: EUR 874 thousand), the Group does not expect a materially negative impact on its economic results.

The Russian invasion of Ukraine only affects the Group indirectly, via changes caused to the macroeconomic environment. These include a sharp increase in energy prices and energy security concerns, high inflation, tightening of monetary policy, higher interest rates and slower economic growth. The effect of these changes to the macroeconomic environment on the Slovak banking sector is complex and multi-layered. While higher inflation and higher interest rates have led to a nominal growth of income, inflationary pressures and slower economic growth are increasing operating expenses and risk costs.

The Group's provisioning methodology reflects forward-looking information in the calculation of provisions in a number of ways. In addition to macroeconomic scenarios, the model is designed to capture the different stages of the credit cycle and various deformation effects, eg supply-side pressures and the impact of the war between Russia and Ukraine. The model incorporates a "special risk factor" approach designed to take into consideration the war between Russia and Ukraine and its economic impact which is primarily reflected in the sanctions imposed on Russia, an extreme oil and energy price increase, high inflation, a substantial increase in interest rates and general high volatility and uncertainty.

Climate change

The Group considers ESG (Environmental, Social, Governance) principles to be important with respect to the long-term positive effects of responsible financing. Therefore, the Group takes into consideration the impacts of its business on the economy, environment and society. It takes into account environmental and social impacts related to products and services. It is up to banks to decide whether they support sustainable or unsustainable projects. There are challenges and risks on the road to sustainability. One of which is the transition from a linear to a circular economy. The Group sees an important role in helping its clients achieve their sustainable goals, either by financing their sustainable investments, or by providing relevant and timely information required to set their ESG strategy. Sustainable assets are crucial for the Group with respect to its carbon footprint, as the overall carbon footprint of financial institutions also comprises indirect emissions, primarily emissions from investments, including loans.

Notes to the Consolidated Financial Statements for the Year Ended 31 December 2023

Prepared in Accordance with International Financial Reporting Standards
as Adopted by the European Union (in thousands of EUR)

To help its clients reduce their carbon footprint and contribute to their transformation to sustainable business, the Group must be able to assess transactions and projects based on clear ESG criteria. In 2020, the Group's parent company proposed and implemented a harmonised definition of sustainability for loan products as binding rules for the Group's parent company group. These rules are defined for retail and corporate clients. They set uniform attributes and conditions for environmental and social financing. This ESG strategy includes sectoral policies related to sectors with the greatest environmental or social impact. Their aim is to help clients from these sectors to transform their operations towards sustainability and thus contribute to optimisation of the Group's financed emissions. Such policies are in place for coal, oil and gas extraction and trading, steel production and trading, and the real estate and construction sectors. With respect to social impacts, the sectoral policies have been implemented for tobacco and tobacco product production and trading, and financing of gambling. Restrictions on the financing of sensitive areas as regards Group values, such as nuclear power, are also an important part of business policy. Group decarbonisation objectives will continue to impact policies implemented in other sectors.

The Group has implemented an accounting policy for ESG-linked financial instruments in accordance with the opinions published by IFRS working groups.

ESG (Environment, Social, Governance) stands for sustainability and social responsibility. With all ESG-linked instruments, it is also necessary to examine whether they meet the SPPI test and, based on the result, to include the instrument in the relevant portfolio. The SPPI test is met if:

- The conditions change the cash flow only minimally ("de minimis" condition); or
- The contractual terms are set in such a way that the instrument meets the definition of a basic loan agreement and the following applies:
 - Contractual cash flows before and after the event/change (reset point) represent repayments of a principal and interest and therefore meet the SPPI test.
 - The contingent event is specific to the borrower and specified in the contract.
 - The contractual terms do not represent an investment or exposure to a separate asset or cash flows that are not exclusively interest and principal payments and therefore do not meet the SPPI test.

In the event that the contingent event is not specific to the borrower or does not meet the de minimis condition, the financial asset does not need to meet the SPPI test. The Group provides ESG loans which meet the contractual terms of the basic lending arrangement as stated above, meet the SPPI test and are measured at amortised cost.

Notes to the Consolidated Financial Statements for the Year Ended 31 December 2023

Prepared in Accordance with International Financial Reporting Standards
as Adopted by the European Union (in thousands of EUR)

II. PRINCIPAL ACCOUNTING POLICIES

The principal accounting policies adopted in the preparation of these financial statements are set out below:

a) Statement of compliance

The consolidated financial statements of the Group (the "financial statements") for 2023 and comparatives for 2022 have been prepared in accordance with International Financial Reporting Standards ("IFRS") as adopted by the European Union ("EU") in Commission Regulation (EC) No 1126/2008, as amended, including valid interpretations of the International Financial Reporting Interpretations Committee ("IFRIC").

New and amended IFRS Accounting Standards that are effective for the current year

In the current year, the Group has applied a number of amendments to the IFRS Accounting Standards issued by the International Accounting Standards Board (IASB) and adopted by the EU that are mandatory for the reporting period beginning on or after 1 January 2023. Their adoption has not had any material impact on the disclosures or the amounts reported in these financial statements.

- **IFRS 17 "Insurance Contracts"** issued by the IASB on 18 May 2017. The new standard requires insurance liabilities to be measured at current fulfilment value and provides a more uniform measurement and presentation approach for all insurance contracts. These requirements are designed to achieve consistent, principle-based accounting for insurance contracts. IFRS 17 supersedes IFRS 4 "Insurance Contracts" and related interpretations while applied. Amendments to IFRS 17 "Insurance Contracts" issued by the IASB on 25 June 2020 defer the date of initial application of IFRS 17 by two years to annual periods beginning on or after 1 January 2023. The amendments issued on 25 June 2020 also introduce simplifications and clarifications of requirements in the standard and provide additional reliefs when applying IFRS 17 for the first time.
- **Amendments to IFRS 17 "Insurance Contracts" – Initial Application of IFRS 17 and IFRS 9 – Comparative Information** issued by the IASB on 9 December 2021. This is a narrow-scope amendment to the transition requirements of IFRS 17 for entities that first apply IFRS 17 and IFRS 9 at the same time.
- **Amendments to IAS 1 "Presentation of Financial Statements" – Disclosure of Accounting Policies** issued by the IASB on 12 February 2021. Amendments require entities to disclose their material accounting policy information rather than their significant accounting policies and provide guidance and examples to help preparers in deciding which accounting policies to disclose in their financial statements.
- **Amendments to IAS 8 "Accounting Policies, Changes in Accounting Estimates and Errors" – Definition of Accounting Estimates** issued by the IASB on 12 February 2021. These amendments focus on accounting estimates and provide guidance on how to distinguish between accounting policies and accounting estimates.
- **Amendments to IAS 12 "Income Taxes" – Deferred Tax related to Assets and Liabilities arising from a Single Transaction** issued by the IASB on 6 May 2021. Under these amendments, the initial recognition exemption does not apply to transactions in which both deductible and taxable temporary differences arise on the initial recognition that result in the recognition of equal deferred tax assets and liabilities.
- **Amendments to IAS 12 "Income Taxes" – International Tax Reform – Pillar Two Model Rules** issued by the IASB on 23 May 2023. The amendments introduced a temporary exception to accounting for deferred taxes arising from jurisdictions implementing global tax rules and disclosure requirements regarding company exposure to income taxes arising from the reform, particularly before legislation implementing the rules comes into effect.

Notes to the Consolidated Financial Statements for the Year Ended 31 December 2023

Prepared in Accordance with International Financial Reporting Standards
as Adopted by the European Union (in thousands of EUR)

New and revised IFRS Accounting Standards in issue and adopted by the EU but not yet effective

At the date of authorisation of these financial statements, the Group has not applied the following revised IFRS Accounting Standards that have been issued by the IASB and adopted by the EU but are not yet effective:

- **Amendments to IFRS 16 “Leases” – Lease Liability in a Sale and Leaseback** issued by the IASB on 22 September 2022. Amendments to IFRS 16 require a seller-lessee to subsequently measure lease liabilities arising from a leaseback in a way that it does not recognise any amount of the gain or loss that relates to the right of use it retains. The new requirements do not prevent a seller-lessee from recognising in profit or loss any gain or loss relating to the partial or full termination of a lease.
- **Amendments to IAS 1 “Presentation of Financial Statements” – Classification of Liabilities as Current or Non-Current** issued by the IASB on 23 January 2020 and **Amendments to IAS 1 “Presentation of Financial Statements” – Non-current Liabilities with Covenants** issued by the IASB on 31 October 2022. Amendments issued in January 2020 provide a more general approach to the classification of liabilities under IAS 1 based on the contractual arrangements in place as at the reporting date. Amendments issued in October 2022 clarify how conditions with which an entity must comply within twelve months of the reporting period affect the classification of a liability and set the effective date for both amendments to annual periods beginning on or after 1 January 2024.

New and revised IFRS Accounting Standards in issue but not adopted by the EU

At present, IFRS Accounting Standards as adopted by the EU do not significantly differ from IFRS adopted by the International Accounting Standards Board (IASB), except for the following new standards and amendments to the existing standards, which were not adopted by the EU as at date of authorisation of these financial statements:

- **Amendments to IAS 7 “Statement of Cash Flows” and IFRS 7 “Financial Instruments: Disclosures” – Supplier Finance Arrangements** issued by the IASB on 25 May 2023. Amendments add disclosure requirements, and ‘signposts’ within existing disclosure requirements to provide qualitative and quantitative information about supplier finance arrangements.
- **Amendments to IAS 21 “The Effects of Changes in Foreign Exchange Rates” – Lack of Exchangeability** issued by the IASB on 15 August 2023. Amendments contain guidance specifying when a currency is exchangeable and how to determine the exchange rate when it is not.
- **IFRS 14 “Regulatory Deferral Accounts”** issued by the IASB on 30 January 2014. This standard is intended to allow entities that are first-time adopters of IFRS and currently recognise regulatory deferral accounts in accordance with their previous GAAP to continue to do so upon transition to IFRS.
- **Amendments to IFRS 10 “Consolidated Financial Statements” and IAS 28 “Investments in Associates and Joint Ventures” – Sale or Contribution of Assets between an Investor and its Associate or Joint Venture** issued by the IASB on 11 September 2014. The amendments address a conflict between the requirements of IAS 28 and IFRS 10 and clarify that in a transaction involving an associate or joint venture the extent of gain or loss recognition depends on whether the assets sold or contributed constitute a business.

The Group does not expect that the adoption of the above standards will have a material impact on the financial statements of the Group in future periods.

Hedge accounting for a portfolio of financial assets and liabilities whose principles have not been adopted by the EU remains unregulated. According to the Group’s estimates, the application of hedge accounting to a portfolio of financial assets or liabilities pursuant to **IAS 39: “Financial Instruments: Recognition and Measurement”** would not significantly impact the financial statements if applied as at the balance sheet date.

Notes to the Consolidated Financial Statements for the Year Ended 31 December 2023

Prepared in Accordance with International Financial Reporting Standards
as Adopted by the European Union (in thousands of EUR)

Purpose of preparation

The purpose of preparing these consolidated financial statements in the Slovak Republic is to comply with Act on Accounting No. 431/2002 Coll., as amended. The Group prepares its separate and consolidated financial statements and annual report under special regulation – Regulation (EC) No 1606/2002 of the European Parliament and of the Council on the Application of International Accounting Standards (IFRS). Separate and consolidated financial statements prepared in compliance with IFRS as at 31 December 2023, dated 19 February 2024 will be available in the Financial Statements Register in accordance with Act No. 431/2002 Coll. on Accounting, as amended. The financial statements are intended for general use and information; they are not intended for the purposes of any specific user or consideration of any specific transactions. Accordingly, the user should not rely exclusively on these financial statements when making decisions.

Basis of preparing the financial statements

The financial statements are prepared on the accrual basis of accounting whereby the effects of transactions and other events are recognised when they occur and reported in the financial statements of the periods to which they relate and on the going concern assumption.

The reporting currency used in the financial statements is the euro (“EUR”) with accuracy to EUR thousands, unless otherwise indicated.

Significant accounting judgements

The presentation of financial statements in conformity with IFRS requires the preparation of estimates and assumptions that affect the recognised amounts of assets and liabilities and disclosure of contingent assets and liabilities as at the date of the financial statements and their recognised amounts of revenues and expenses during the reporting period. Actual results may differ from those estimates and future changes in the economic conditions, business strategies, regulatory requirements, accounting rules, or other factors could subsequently result in a change in estimates which could have a material impact on the reported financial position and results of operations.

The effect of a change in accounting estimates shall be recognised prospectively by including it in profit or loss in the period of the change, if the change affects that period only, or the period of the change and future periods, if the change affects both. Significant areas of judgement include the following:

- The creation of impairment allowances for expected credit losses and identified future contingent liabilities involves many uncertainties concerning the outcomes of the risks mentioned above and requires the Group’s management to make many subjective assessments when estimating the amount of losses. Measurement of impairment allowances for expected credit losses for financial assets measured at amortised cost and at fair value through other comprehensive income is an area which requires application of complex models and significant judgements regarding such future economic conditions and credit behaviour. Considering the current economic conditions, the result of estimates may differ from the impairment allowances for financial assets recognised as at 31 December 2023. The item is reported in Note 11 “(Creation)/release of provisions for expected losses from commitments and guarantees provided”.
- The income tax rules and regulations have recently experienced significant changes; there is a limited historical precedent and/or interpretation judgement with respect to the extensive and complex issues affecting the banking sector. Furthermore, the tax authorities have broad powers as regards the interpretation of tax laws and regulations during the tax audit of a taxpayer. As a result, there is a higher degree of uncertainty as to the final outcome of any potential audit conducted by the tax authorities. Since many areas of the Slovak tax law have not been sufficiently validated yet in practice, there is uncertainty as to how they will be applied by the tax authorities. The extent of this uncertainty cannot be quantified and disappears only when legal precedents or official interpretations of the competent authorities become available. The item is recognised in Note 14 “Income tax”.
- Provisions for litigation take into account a significant degree of judgment in the expected future development of the respective litigation based on the facts available at the time of their creation. However, the actual outcome of the respective litigation may ultimately differ significantly from the expected state as a result of the development of the litigation itself. The item “(Creation)/release of provisions for litigation” is recognised in Note 10 “(Creation)/release of provisions”.

Notes to the Consolidated Financial Statements for the Year Ended 31 December 2023

Prepared in Accordance with International Financial Reporting Standards
as Adopted by the European Union (in thousands of EUR)

b) Consolidation principles

The consolidated financial statements comprise the financial statements of the Bank and its subsidiaries (see Note I. GENERAL INFORMATION) prepared for the year ended 31 December 2023.

IFRS 12 requires disclosures about significant judgments and assumptions made in determining the nature of interests in an entity or arrangement, interests in subsidiaries, joint arrangements and associates, and in unconsolidated structured entities. Based on the prepared analysis, the Group does not have an investment in consolidated or unconsolidated structured entities.

Associates are those entities in which the Bank has significant influence, but not control or joint control, over the financial and operating policies. A joint venture is an arrangement in which the Bank has joint control, whereby the Bank has a right to the net assets of the arrangement rather than a right to the assets and liability for the obligations concerning the arrangement.

I. Business combinations

The acquisition method is applied to business combinations where the Group acquires control. The consideration provided on acquisition is generally measured at fair value, as are the net assets acquired. Recognised goodwill is tested annually for impairment. Any gain on a bargain purchase is recognised in profit or loss immediately. The related acquisition costs (transaction costs) are expensed as incurred, except if related to the issue of debt and equity securities.

The consideration provided does not include amounts related to the settlement of any relationships existing before business combination. Such amounts are recognised in profit or loss.

Any contingent consideration is measured at fair value at the acquisition date. If an obligation to pay contingent consideration that meets the definition of a financial instrument is classified as equity, the contingent consideration is not remeasured and its settlement is recognised in equity. Otherwise, subsequent changes in the fair value of the contingent consideration are recognised in profit or loss.

II. Subsidiaries

Subsidiaries are entities controlled by the Group. The Group controls an entity when it is exposed, or has rights, to variable returns from its participation in the entity and has the ability to affect those returns through its power over the entity. The financial statements of subsidiaries are included in the consolidated financial statements from the date on which control is obtained until the date on which control ceases.

III. Non-controlling interests

Non-controlling interests are measured at the proportionate share of the acquiree's identifiable net assets at the acquisition date. Changes in the Group's interests in a subsidiary that do not result in a loss of control are recognised in equity.

IV. Loss of control

When the Group loses control over a subsidiary, it derecognises the assets and liabilities of the subsidiary and any related non-controlling interests and other equity items. Any gain or loss arising on the loss of control is recognised in profit or loss. Any non-controlling interest retained in a former subsidiary is measured at fair value at the date when control is lost.

V. Transactions eliminated on consolidation

Intra-group balances and transactions, and any unrealised income and expenses arising from intra-group transactions, are eliminated in the preparation of the consolidated financial statements. Unrealised gains on transactions with entities recognised using the equity method are eliminated against the investments in such entities, up to the extent of the Group's interest in the investee. Unrealised losses are eliminated in the same way as unrealised gains, but only to the extent of no evidence of impairment of the investment.

VI. Method of consolidation

The Bank assessed its shares in and control over its subsidiaries, joint ventures and associates with respect to IFRS 10, IFRS 11 and IFRS 12. Subsidiaries are consolidated using the full consolidation method.

Notes to the Consolidated Financial Statements for the Year Ended 31 December 2023

Prepared in Accordance with International Financial Reporting Standards
as Adopted by the European Union (in thousands of EUR)

c) Foreign currencies

Monetary assets and liabilities denominated in foreign currencies are translated into euro and recognised in the financial statements at the exchange rate declared by the European Central Bank (ECB) valid as at the reporting date. Revenues and expenses denominated in foreign currencies are recognised in euro in the underlying accounting system of the Group and are recognised in the financial statements at the actual exchange rate of the European Central Bank valid as at the date of the transaction.

Exchange rate gains/(losses) from foreign exchange transactions, including unrealised gains and losses from financial assets revaluations to fair value, are included in the statement of comprehensive income item "*Net profit/(loss) from financial instruments held for trading and exchange rate differences*".

Exchange rate gains/(losses) from equity financial instruments measured at fair value through other comprehensive income are recognised in "*Other comprehensive income*".

The unrealised gain or loss from fixed term transactions is recognised only in EUR where fair value is calculated by the standard mathematical formula based on the anticipated forward exchange rate, which takes into account the European Central Bank spot rate and interest rates effective as at the reporting date and is recognised in the statement of financial position item "*Receivables from hedging derivatives*" for a receivable, or in "*Liabilities from hedging derivatives*" for a liability, and in the statement of comprehensive income item "*Net profit/(loss) from financial instruments held for trading and exchange rate differences*".

Off-balance sheet transactions denominated in foreign currency are translated into euro in the Group's off-balance sheet using the ECB exchange rate valid as at the reporting date.

d) Cash, cash balances at central banks and other demand deposits

Cash, cash balances at central banks and other demand deposits consist of cash and balances on current accounts in the National Bank of Slovakia, including the compulsory minimum reserves in the National Bank of Slovakia. Other demand deposits (cash equivalents) include current deposits due to banks payable on demand.

The compulsory minimum reserve in the National Bank of Slovakia is a required deposit with restricted drawing to be held by all commercial banks licensed in the Slovak Republic. The interest rate is determined by the European Central Bank on a regular basis after the end of each period determined by the European Central Bank. The amount of the reserve depends on the amount of deposits received by the Bank. The Bank's ability to draw the reserve is limited in accordance with the applicable legislation. Therefore, it is not included in "*Cash and cash equivalents*" for the purpose of preparing the statement of cash flows (see the consolidated statement of cash flows).

e) Financial instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

On initial recognition financial assets and financial liabilities are measured at fair value including transaction costs attributable to the acquisition or issue of a financial instrument. An exception from this rule is the measurement of financial instruments measured at fair value through profit or loss where transaction costs are not included in the cost.

The transaction price is the best estimate of the fair value of a financial instrument upon acquisition. However, if the transaction price differs from the fair value and:

- The fair value of the financial instrument is derived from a quoted price in an active market, or is the result of a valuation technique using observable market data only, the Group measures the financial instrument at fair value and recognises a profit or loss incurred on the first day;
- In all other cases, the financial instrument is measured at fair value, and the difference between the fair value and the transaction price is retained and only recognised through profit or loss if it results from a change in a factor, such as the time that market participants take into consideration when determining the price of a financial instrument.

The Group has applied an approach to the classification and measurement of financial assets that takes into account the business model in which the assets are managed as well as the characteristics of their cash flows.

Notes to the Consolidated Financial Statements for the Year Ended 31 December 2023

Prepared in Accordance with International Financial Reporting Standards
as Adopted by the European Union (in thousands of EUR)

The Group classifies financial instruments into four categories of financial assets and two categories of financial liabilities:

1. Financial assets measured at amortised cost (AC),
2. Financial assets measured at fair value through other comprehensive income (FVOCI),
3. Financial assets mandatorily measured at fair value through profit or loss (FVTPL),
4. Financial assets measured at fair value through profit or loss (FVTPL),
5. Financial liabilities measured at amortised cost (AC), and
6. Financial liabilities measured at fair value through profit or loss (FVTPL).

Financial assets are measured at amortised cost if both of the following conditions are met:

- The financial asset is held within a business model whose objective is to hold assets in order to collect contractual cash flows, and
- The contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the outstanding principal amount.

Occasional or insignificant sales, pre-maturity sales or sales which do not constitute a change in the business model are not contrary to the intention to hold the financial assets to maturity to collect contractual cash flows.

A debt financial asset acquired under a business model whose objective is both collecting the contractual cash flows and selling financial assets, and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding is measured at fair value through other comprehensive income (FVOCI).

On initial recognition of an equity instrument that is not held for trading, the Group may irrevocably elect to present subsequent changes in fair value in other comprehensive income. This decision is made on an investment-by-investment basis for each investment and takes into account strategic interests. Profits and losses from revaluation are not recognised in profit or loss. After derecognition of the investment, the final profit or loss is recognised in retained earnings.

All other financial assets, i.e. financial assets that do not meet the criteria for classification as subsequently measured at either amortised cost or FVOCI, are classified as subsequently measured at fair value, with changes in fair value recognised through the statement of comprehensive income.

In addition to the above accounting principles, the Group has the option at initial recognition to irrevocably designate a financial asset as FVTPL if doing so eliminates or significantly reduces a measurement or recognition inconsistency, i.e. an accounting mismatch that would otherwise arise from measuring assets or liabilities, or recognising the gains and losses on them, on different bases. Based on the business model and cash flow circumstances, a financial asset is classified into one of these categories upon initial recognition.

Financial assets held for trading and those that are managed and whose performance is measured based on fair value will be measured at FVTPL.

Analysis of contractual cash flow characteristics

Once the Group determines that the business model of a specific portfolio is to hold the financial assets to collect the contractual cash flows (or by both collecting contractual cash flows and selling financial assets), it must assess whether the contractual terms of the financial asset give rise on specific dates to cash flows that are solely the payments of principal and interest on the principal amount outstanding. For this purpose, interest is defined as a consideration for the time value of money, the credit risk associated with the principal during a particular period of time and for other basic lending risks and costs, as well as a profit margin. This assessment will be carried out on an instrument-by-instrument basis on initial recognition of the financial asset.

When assessing whether the contractual cash flows are solely the payments of principal and interest, the Group will consider the contractual terms of the instrument. This will include assessing whether the financial asset contains a contractual term that could change the timing or amount of contractual cash flows such that it would not meet this condition.

Notes to the Consolidated Financial Statements for the Year Ended 31 December 2023

Prepared in Accordance with International Financial Reporting Standards
as Adopted by the European Union (in thousands of EUR)

The Group will consider:

- Prepayment, extension terms;
- Leverage features;
- If a claim is limited to specified assets or cash flows;
- Contractually-linked instruments; and
- Interest rate.

Modification of time value of money and the benchmark test

The time value of money is the element of interest that provides consideration for the passage of time. It does not take into account other risks (credit, liquidity, etc.) or costs (administrative, etc.) associated with holding a financial asset.

In some cases, the time value of money element may be modified (imperfect). This is the case, for example, if a financial asset's interest rate is periodically reset but the frequency of that reset does not match the tenor of the interest rate. In this case, the entity must assess the modification to determine whether the contractual cash flows still represent solely the payments of principal and interest, i.e. the modification term does not significantly alter the cash flows from a "perfect" benchmark instrument.

1. Financial assets measured at amortised cost (AC)

The main components of the portfolio of financial assets measured at amortised cost are:

- Loans and advances in "hold-to-collect" business model; and
- Debt securities in "hold-to-collect" business model.

Loans and advances

Loans and advances are financial assets with fixed or determinable payments that are not quoted in an active market. Loans and advances are measured at amortised cost using the effective interest method, less impairment allowances. The effective interest rate is described in detail in (r) "Recognition of income and expenses: Interest, fees and commissions of an interest-rate nature" section.

Loans are recognised by the Group in the statement of financial position when providing funds to the debtor. During this exercise, the Group creates potential liabilities that are associated with credit risk. The Group recognises potential off-balance sheet liabilities and creates provisions for such liabilities that represent the level of risk of issued guarantees, letters of credit and undrawn credit limits as at the reporting date.

Debt securities

Financial assets held in this portfolio are managed to realise cash flows by collecting contractual payments over the lifetime of the instrument. When determining whether cash flows will be realised by collecting the financial assets' contractual cash flows, the Group considered the frequency, value and timing of sales in prior periods, the reasons for such sales, and expectations regarding future sales. The business model was not only determined based on sales, as information about past sales and expectations regarding future sales was also taken into consideration so as to provide sufficient evidence that the Group manages financial assets with the objective of realising cash flows in accordance with the defined "hold-to-collect" business model. The portfolio primarily includes securities issued by the government and other highly-rated securities.

Debt securities at amortised cost are measured using the effective interest rate less impairment. Interest income, discounts and premiums on debt securities at amortised cost are recognised in the statement of comprehensive income under "Interest income calculated using the effective interest rate".

2. Financial assets measured at fair value through other comprehensive income (FVOCI)

The Group has two portfolios of financial assets measured at fair value through other comprehensive income. These portfolios are:

- Equity instruments not held for trading; and
- Debt securities meeting the SPPI test in the "hold to collect and sell" business model.

Notes to the Consolidated Financial Statements for the Year Ended 31 December 2023

Prepared in Accordance with International Financial Reporting Standards
as Adopted by the European Union (in thousands of EUR)

Equity instruments

On initial recognition, the Group used an irrevocable option and included shares and ownership interests meeting the definition of equity instruments in line with IFRS in the portfolio of financial assets measured at fair value through other comprehensive income. These are primarily shares in privately-owned companies for which there is no active market, or in companies where participation is mandatory (S.W.I.F.T. s. c., D. Trust Certifikačná Autorita, a. s., Slovak Banking Credit Bureau, s.r.o., Monilogi s.r.o).

Dividends on financial assets at fair value through other comprehensive income are recognised in the statement of comprehensive income under "*Net interest income and dividend income*". Fair value gains or losses on equity securities measured at FVOCI are never reclassified to profit or loss. They are not subject to impairment and as a result, no impairment is recognised in profit or loss. Cumulative gains and losses recognised in other comprehensive income are transferred to retained earnings on disposal of an investment.

Debt securities

Debt securities included in the portfolio of financial assets measured at fair value through other comprehensive income are initially measured at fair value net of transaction costs. Unrealised gains and losses arising from changes in fair value are recognised in "*Revaluation reserve from financial instruments measured at fair value through other comprehensive income*" within the Group's equity until the moment of disposal or impairment of the given debt security. In the event of the disposal of a debt security, the cumulative gains and losses recognised in "*Revaluation reserve from financial instruments measured at fair value through other comprehensive income*" are reclassified to the statement of comprehensive income under "*Net profit/(loss) from derecognition of financial assets and liabilities not measured at fair value through profit or loss*".

Impairment of financial assets measured at amortised cost and financial assets measured at fair value through other comprehensive income, credit receivables and financial guarantees

The calculation of expected credit losses requires the use of accounting estimates which may differ from the actual results. For the purposes of calculation, management also considers the Group's accounting policies.

The Group assesses on a forward-looking basis the expected credit losses associated with its debt instruments – assets measured at amortised cost and at fair value through other comprehensive income (FVOCI) and with the exposure arising from loan commitments, lease receivables and financial guarantee contracts. The Group recognises an impairment allowance for such losses as at each reporting date.

Measurement of expected credit losses

The measurement of expected credit losses reflects a probability-weighted amount of loss that is determined by evaluating a range of possible outcomes, the time value of money and reasonable and supportable information that is available without undue cost or effort as at the reporting date about past events, current conditions and forecasts of future economic conditions.

The measurement of the impairment allowance for expected credit loss for financial assets measured at amortised cost and at fair value through other comprehensive income is the area that requires the use of complex models and significant assumptions about future economic conditions and credit behaviour. Significant judgements are:

- Determining criteria for significant increase in credit risk;
- Choosing appropriate models and assumptions for the measurement of expected credit losses;
- Establishing the number and relative weightings of forward-looking scenarios for each type of product/market and the associated expected credit losses;
- Establishing groups of similar financial assets for the purposes of measuring expected credit losses.

The estimation of credit exposure for risk management purposes is complex and requires the use of models. The assessment of credit risk of a portfolio of assets entails further estimations as to the probability of defaults occurring, of the associated loss ratios and of default correlations between counterparties. The Group measures credit risk using probability of default (PD), exposure at default (EAD) and loss given default (LGD). This is the predominant approach used for the purposes of measuring expected credit losses under IFRS 9.

Notes to the Consolidated Financial Statements for the Year Ended 31 December 2023

Prepared in Accordance with International Financial Reporting Standards
as Adopted by the European Union (in thousands of EUR)

IFRS 9 prescribes a three-stage model for impairment of financial assets based on the changes in credit quality since the initial recognition. This model requires that a financial instrument which is not impaired on initial recognition is classified as Stage 1 and has its credit risk continuously monitored. If a significant increase in credit risk since initial recognition is identified, the financial instrument is moved to Stage 2, but is not deemed to be impaired. If the financial instrument is impaired, the financial instrument is then moved to Stage 3.

Financial instruments in Stage 1 have their expected credit loss measured at an amount equal to the portion of lifetime expected credit losses that result from default events possible in the next 12 months. Instruments in Stages 2 or 3 have their expected credit losses measured based on expected credit losses on a lifetime basis. According to IFRS 9, when measuring expected credit losses it is necessary to consider forward-looking information. Purchased or originated impaired financial assets are financial assets that are impaired on initial recognition. Such loans are initially recognised at fair value and their expected credit loss is measured as a cumulative change over the full lifetime of a loan (Stage 3). When determining the fair value of an impaired financial asset, the Group takes into account all expected losses, including estimated losses based on information about the customer/issuer gained from the market, macroeconomic indicators and scenarios estimating future developments.

A financial instrument is considered impaired if one or more of the following events representing a default of the customer/issuer have occurred:

- Significant financial difficulties of the borrower/issuer;
- A breach of contract, such as a default or past due event;
- The borrower has been contractually granted a concession due to financial difficulties;
- It is probable that the borrower will enter bankruptcy or restructuring;
- The disappearance of an active market for that financial asset because of financial difficulties;
- The purchase of an asset at a deep discount that reflects an incurred credit loss.

If the fair value of the impaired asset was recognised at a lower amount than the cash flows from the impaired asset, the Group recognises a profit.

Expected credit losses are recognised in the statement of comprehensive income, line "*Impairment allowances for financial assets and provisions for commitments and guarantees provided*". If the reason for the recognition of an impairment allowance/provision no longer applies, or the amount of the impairment allowance/provision is unreasonable, surplus impairment allowances/provisions will be released through the same line of the statement of comprehensive income.

Significant increase in credit risk

The Group considers a financial instrument to have experienced a significant increase in credit risk when one or more of the following quantitative, qualitative or backstop criteria have been met:

Quantitative criteria

The Group uses quantitative criteria as the primary indicator of a significant increase in credit risk for all material portfolios. For quantitative staging, the Group compares the lifetime PD curve at the measurement date with the forward lifetime PD curve at the date of initial recognition. For the estimation of the lifetime PD curve at the date of initial recognition, assumptions are made about the structure of the PD curve. For highly-rated financial instruments (i.e. instrument with higher than average rating of the portfolio), it is assumed that the PD curve will deteriorate over time. For low-rated financial instruments, it is assumed that the PD curve will improve over time. The degree of improvement or deterioration will depend on the level of the initial rating.

The Group applies an increase in PD as a criterium for SICR determination for all portfolios with officially validated Lifetime PD models. Currently, these are the following: mortgages and home equity loans, non-purpose consumer loans, credit cards for private individuals (PI), and PI overdrafts. A significance trigger (a threshold value) is defined during the model development as it is evaluated for each of these portfolios separately. It corresponds to a predefined quantile of the distribution of logit differences of cumulative PDs (current and at origination), assessed on a worsening portfolio. Currently, the 90th percentile is used for all portfolios.

Qualitative criteria

The Group uses qualitative criteria as a secondary indicator of a significant increase in credit risk for all material portfolios. The transfer to Stage 2 takes place when the criteria below are met.

Notes to the Consolidated Financial Statements for the Year Ended 31 December 2023

Prepared in Accordance with International Financial Reporting Standards
as Adopted by the European Union (in thousands of EUR)

For sovereign, bank, corporate and project finance portfolios, if the borrower meets one or more of the following criteria:

- External market indicators
- Changes in contract terms
- Changes to management approach
- Expert judgement

Significant changes in external market indicators of credit risk for a particular financial instrument or similar financial instruments with the same expected life. Changes in market indicators of credit risk include, but are not limited to the credit spread, the credit default swap prices for the borrower, the length of time or the extent to which the fair value of a financial asset has been less than its amortised cost, and other market information related to the borrower (such as changes in the price of a borrower's debt and equity instruments).

Expected changes in the contractual terms including an expected breach of contract that may lead to covenant waivers or amendments, interest payment holidays, interest rate step-ups, requiring additional collateral or guarantees, or other changes to the contractual framework of the instrument.

The assessment of a significant increase in credit risk incorporates forward-looking information and is performed on a quarterly basis at a deal level for all non-retail portfolios held by the Group.

For retail portfolios, if the borrower meets one or both of the criteria enlisted below:

- Forbearance
- Expert judgement

The assessment of a significant increase in credit risk incorporates forward-looking information and is performed on a monthly basis at a deal level for all portfolios held by the Group.

Backstop

A backstop is applied if the financial instrument is considered to have experienced a significant increase in credit risk when a borrower is more than 30 days past due on its contractual payments. In some limited cases, the presumption that financial assets which are more than 30 days past due should be in Stage 2 is rebutted. Rebuttal can be performed only due to technical reasons (such as failed or incorrect IT processes for past due data calculation), and only in rare situations when correction of input data cannot be successfully remedied in the original IT system.

The Group has not used the low credit risk exemption for any lending business; however, it selectively uses the exemption for debt securities due to low credit risk.

Definition of default and impaired assets

The Group defines a financial instrument as in default, which is fully aligned with the definition of credit impaired, when it meets one or more of the following criteria.

When the borrower is more than 90 days past due on its contractual payments, no attempt is made to rebut the presumption that financial assets which are more than 90 days past due should be in Stage 3.

The borrower meets unlikelihood to pay criteria, which indicates that the borrower is in significant financial difficulty. These are the cases where:

- The borrower is in long-term forbearance,
- The borrower is deceased,
- The borrower is insolvent,
- The borrower is in breach of significant financial covenants,
- An active market for that financial asset has disappeared because of financial difficulties,
- Significant concessions have been made by the lender relating to the borrower's financial difficulty,
- It is probable that the borrower will enter bankruptcy,
- Financial assets are purchased or originated at a deep discount that reflects the incurred credit losses.

The above criteria have been applied to all financial instruments measured at amortised cost and debt instruments at fair value through other comprehensive income held by the Group and are consistent with the definition of default used for internal credit risk management purposes.

Notes to the Consolidated Financial Statements for the Year Ended 31 December 2023

Prepared in Accordance with International Financial Reporting Standards
as Adopted by the European Union (in thousands of EUR)

Explanation of inputs, assumptions and estimation techniques

The expected credit loss is measured on either a 12-month or lifetime basis depending on whether a significant increase in credit risk has occurred since initial recognition, or whether an asset is considered to be impaired. Forward-looking economic information is also included in determining the 12-month and lifetime PD, EAD and LGD. These assumptions vary by product type. Expected credit losses are the discounted product of the probability of default (PD), loss given default (LGD), exposure at default (EAD) and discount factor (D).

Probability of default

The probability of default represents the probability of a borrower defaulting on its financial obligation over the next 12 months or over the remaining lifetime of the obligation. As a rule, the lifetime probability of default is calculated using the regulatory 12 month probability of default, stripped of any margin of conservatism, as a starting point. Thereafter, various statistical methods are used to generate an estimate of how the default profile will develop from the point of initial recognition throughout the lifetime of the loan or portfolio of loans. This probability of default is calculated separately for each product type based on the longest possible history of data for the product concerned available in the Group's internal database. Subsequently, various statistical methods are used to estimate the development of the default profile since the initial recognition over the lifetime of the loan or the loan portfolio, in particular: survival rating level analysis, interpolation of 12-month probability of default to loan lifetime and, in the event of insufficient data for the above mentioned models, benchmark values (constants) were recommended by a group methodology that differs depending on the product type.

In limited cases, where some inputs are not fully available, grouping, averaging and benchmarking of inputs are used for the calculation.

Loss given default

Loss given default represents the Group's expectation of the extent of loss on a defaulted exposure. Loss given default varies by type of counterparty and product. Loss given default is expressed as a percentage loss per unit of exposure at the time of default. Loss given default is calculated by counting the yield collected over the collection cycle from the moment of the loan default, the resulting percentage loss given default being expressed as an add-up to 100% to the weighted average of all yields over the observation period of the number of defaulted loans for that product type. In a simplified methodology, the Group does not use the loan-level yields, but yields are counted by date of default.

Exposure at default

Exposure at default is based on the amounts the Group expects to be owed at the time of default, over the next 12 months or over the remaining lifetime. The 12-month and lifetime EADs are determined based on the expected payment profile, which varies by product type. For amortising products and bullet repayment loans, this is based on the contractual repayments owed by the borrower over a 12-month or lifetime basis. Where relevant, early repayment/refinance assumptions are also considered in the calculation.

For revolving products, the exposure at default is predicted by adding a credit conversion factor to the current drawn balance, which allows for the expected drawdown of the remaining limit by the time of default.

Discount factor

As a rule, for balance sheet exposure which is not leasing or purchased or originated credit-impaired asset (POCI), the discount rate used in the expected credit loss calculation is the effective interest rate or an approximation thereof.

The expected credit loss is the product of Probability of Default (PD), Loss Given Default (LGD), Exposure at Default (EAD) and by the probability of non-default prior to the considered time period. The latter is expressed by the survivorship function S . This calculates future values of expected credit losses, which are then discounted back to the reporting date and summed. The calculated values of expected credit losses are then weighted by a forward looking scenario.

Notes to the Consolidated Financial Statements for the Year Ended 31 December 2023

Prepared in Accordance with International Financial Reporting Standards
as Adopted by the European Union (in thousands of EUR)

Different models have been used to estimate the Stage 3 provisions of outstanding lending amounts and these can be split into the following categories:

- Sovereign, corporate customers, project finance, financial institutions, local and regional governments, insurance companies and collective investment undertakings – Stage 3 provisions are calculated by workout managers who discount expected cash flows by the appropriate effective interest rate.
- Retail mortgages – Stage 3 provisions are generated by calculating the statistically derived best estimate of expected loss net of indirect costs.

Forward-looking information

Both the assessment of a significant increase in credit risk and the calculation of expected credit losses incorporate forward-looking information. The Group has performed historical analysis and identified key economic variables impacting credit risk and expected credit losses for each portfolio.

Expert judgment is applied in this process. Forecasts of economic variables (base economic scenario) are provided by Raiffeisen Research on a quarterly basis and provide the best estimate view of the economy over the next three years. After three years, to project the economic variables for the full remaining lifetime of each instrument, a mean reversion approach is used, which means that economic variables tend to achieve either a long run average rate, or a long run average growth rate until maturity. The impact of economic variables on the probability of default, loss given default and exposure at default is determined using statistical regression to understand the impact that changes in these variables have had historically on default rates and on the components of loss given default and exposure at default.

In addition to the base economic scenario, Raiffeisen Research also provides a best case and worst case scenario. The scenario weightings are determined by a combination of statistical analysis and expert credit judgement, taking into account the range of possible outcomes that each chosen scenario is representative of. The following weights for individual economic scenarios are used in retail: 25% (upside/optimistic), 50% (base), 25% (downside/pessimistic).

The Group considers these forecasts representing its best estimate of the possible outcomes to cover any potential non-linearities and asymmetries in the Group's different portfolios.

Economic scenarios used as at 31 December 2023 include the following key indicators for the Slovak Republic for the years ended 31 December 2024 to 2026:

	(%)	2024	2025	2026
Unemployment rates	Baseline	5.43	5.35	5.30
	Downside	7.76	6.64	6.59
	Upside	4.93	5.07	5.02
Interest rates	Baseline	3.48	3.10	2.75
	Downside	4.37	3.60	3.25
	Upside	2.34	2.47	2.12
GDP growth	Baseline	1.49	2.11	2.06
	Downside	-0.58	0.96	0.91
	Upside	2.88	2.88	2.84
Real estate price index	Baseline	3.02	3.11	3.20
	Downside	2.83	2.83	2.82
	Upside	3.16	3.33	3.51

Economic scenarios used as at 31 December 2022 include the following key indicators for the Slovak Republic for the years ended 31 December 2023 to 2025:

	(%)	2023	2024	2025
Unemployment rates	Baseline	6.11	5.84	5.71
	Downside	8.72	7.29	7.16
	Upside	3.96	4.38	4.25
Interest rates	Baseline	2.60	2.15	1.78
	Downside	3.50	2.65	2.27
	Upside	2.12	1.88	1.51
GDP growth	Baseline	1.71	2.47	2.50
	Downside	-1.13	0.90	0.92
	Upside	3.25	3.33	3.35
Real estate price index	Baseline	2.88	2.97	3.06
	Downside	2.67	2.65	2.63
	Upside	3.10	3.31	3.54

Notes to the Consolidated Financial Statements for the Year Ended 31 December 2023

Prepared in Accordance with International Financial Reporting Standards
as Adopted by the European Union (in thousands of EUR)

Non-standard conditions may give rise to a situation where a specific risk factor occurs (or a number of risk factors or a combination thereof) with a potential impact on a certain portion of the Group's credit portfolio, eg certain economic industries. If such a risk factor occurs suddenly, over a short period of time, or the factor is of a temporary nature, such a factor may not be (partially or fully) reflected in the credit quality rating of the counterparty.

In such a case, the Group may apply corrections of potentially incomplete information as regards the portfolio's credit quality (forward-looking information principle) as Post-Model Adjustments (PMA).

Since December 2021, the Group has applied PMA at the level of economic industries, ie the Industry Module, to reflect the impact of specific risk factors on the most sensitive industries. The application of this method resulted in quantification of additional credit impairment of the portfolio (expected loss or impairment allowance), which is subsequently allocated to individual clients from a set of identified industries.

As at 31 December 2023, the Group applied two quantification approaches:

- "General Industry Based Approach" – based on an assessment of specific risk factors, the first step requires the identification of a high-risk industry portfolio. Subsequently, the amount of additional impairment allowances is calculated based on a simulation of the deterioration of credit rating of the counterparties (rating deterioration of clients in the identified industries by 3 grades). The simulation results in a calculation of the need for additional impairment allowances, which are subsequently allocated to individual clients from the identified industries. This approach was also applied as at 31 December 2022.
- "Specific Industry Based Approach" – method implemented in June 2023. Due to increased uncertainty and risk in the Commercial Real Estate (CRE) portfolio, RBI performed stress testing of clients classified in the CRE segment. Based on the stress testing results, the need for additional impairment allowances was calculated as an amount representing the potential amount of losses under the stress scenario conditions.

Sensitivity analysis

The assumptions affecting the expected credit loss allowance are as follows:

- Corporate portfolios
 - Gross domestic product;
 - Unemployment rate;
 - Long term government bond rate;
 - Inflation rate.
- Retail portfolios
 - Gross domestic product;
 - Unemployment rate;
 - Real estate prices.

Write-offs

The Group writes off the loans and advances provided to clients if, on the basis of an in-depth analysis, it proves that there is no real expectation of another recovery or the chance of another recovery is minimal. The usual, but not the only write-off indicators are the following: (i) the debtor does not carry out any activity, no repayment has been made over the past two years and there is no collateral or (ii) the debtor is in bankruptcy, all the assets being monetised and the proceeds realised; (iii) the court has decided (e.g. legal restructuring, debt elimination, etc.) to write off part of the receivable, or (iv) the Group sells the claim, and others. In the event of ongoing litigation or other actions that might eventually lead to a recovery, the Group usually writes off the receivables into the off-balance sheet.

Loans are written off on the basis of a valid decision of a court, Board of Directors, or another body of the Group (i.e. Problem Loan Committee and Executive Committee), in line with an internal directive on waiving their enforcement against booked impairment allowance. If the amount of the written-off receivable is higher than the impairment allowance created, further impairment allowance is created up to the amount of the written-off receivable and subsequently is derecognised from the statement of comprehensive income. The written-off receivables for which the right to recovery have not expired are recorded in the off-balance sheet. As at 31 December 2023, written-off receivables for which the right to recovery have not expired were in the amount of EUR 8 338 thousand (as at 31 December 2022: EUR 33 228 thousand).

Notes to the Consolidated Financial Statements for the Year Ended 31 December 2023

Prepared in Accordance with International Financial Reporting Standards
as Adopted by the European Union (in thousands of EUR)

After the write-off, the Group does not carry out active enforcement, only with respect to write-offs to the off-balance sheet does it continue to conduct litigation in order to achieve a recovery in the future. If the Group, after writing off the loans and advances provided to the client, collects additional amounts from the client or obtains control over the collateral that is higher than originally estimated, the yield is recognised in the statement of comprehensive income under "*Impairment allowances for financial assets and provisions for commitments and guarantees provided*".

Loan collateral

In terms of handling collateral, the Group places great emphasis on valuation and revaluation of individual items of collateral, determining the value of pledged collateral for secured loans, determining collateral acceptability to mitigate credit risk, and collateral enforcement, should the client be in default.

The Group mainly accepts the following types of collateral:

- Financial collateral
 - Guarantees
 - Real estate
 - Chattel
 - Receivables
 - Life insurance

In terms of legal instruments, the Group uses:

- Pledges
- Assignments of receivable intended to serve as security
- Transfers of title intended to serve as security
- Blockages of cash
- Contracts for purchase of securities
- Agreements on liability replacement

The methodology of collateral valuation and the frequency of such revaluation depend on the type of collateral and the minimum requirements pursuant to the effective legislative standards implemented in the Group's internal regulations. The method of determining the value of collateral is specific for each type of collateral, and the Group respects a degree of prudence.

The value of pledged collateral is determined on a case-by-case basis for each type of collateral depending on the type of collateral and transaction, and individual risk characteristics. The value of pledged collateral is obtained by discounting the initial value of collateral obtained in valuation and revaluation. Factors based on which discounting factors are determined relate mainly to the enforceability of collateral if the counterparty defaults (e.g. type, location and condition of real estate), potential default of the security provider (e.g. credit quality and maturity of financial collateral), and other factors (the Group's business strategy and orientation). The discounting factors applied are subject to regular revaluation.

The claim value of collateral is derived from the value of pledged collateral up to the amount of the current amount receivable. If the value of pledged collateral is lower than the balance of the receivable, the Group will determine the claim value of collateral up to the amount of the value of pledged collateral.

The claim value of collateral contains a number of uncertainties and risks. The amounts that may be recovered in the course of liquidating the collateral for bad debts could differ from the estimated amounts, and the difference could be material.

The Group's decision on the enforcement of collateral is individual and depends on factors such as the current condition and value of the collateral, the current amount receivable, the promptness of the satisfaction of the receivable, collection-related costs etc. The relevant competent body of the Group decides which security instrument will be used in specific cases.

The Group mainly uses the following forms of enforcement of collateral:

- Voluntary auction
- Foreclosure procedure
- Realisation of the collateral for the Group's receivable in a bankruptcy procedure
- Sale of receivables

Notes to the Consolidated Financial Statements for the Year Ended 31 December 2023

Prepared in Accordance with International Financial Reporting Standards
as Adopted by the European Union (in thousands of EUR)

3. Financial assets mandatorily measured at fair value through profit or loss (FVTPL)

When the Group determines that a specific portfolio business model is to hold financial assets in order to collect contractual cash flows (or both: to collect contractual cash flows and to sell financial assets) and assumes that for the financial assets in question, the contractual cash flows do not constitute purely principal and interest payments, the Group recognises those financial assets under "*Financial assets mandatorily measured at fair value through profit or loss*". Primary as well as subsequent valuation of the listed financial assets is at fair value.

4. Financial assets measured at fair value through profit or loss (FVTPL)

Financial assets held for trading

The Group has acquired financial assets held for trading to utilise short-term price fluctuations in order to generate profits. In this category, the Group recognises securities - debt securities, treasury bills and shares. Debt securities and treasury bills are recognised by the Group in the statement of financial position line "*Financial assets held for trading*". All purchases and sales of trading securities are recognised as at the settlement date.

Financial assets held for trading are initially measured at fair value and subsequently remeasured to their present fair value. The Group discloses unrealised gains and losses on the fair value remeasurement of such assets and net interest income in the statement of comprehensive income line "*Net profit/(loss) from financial instruments held for trading and exchange rate differences*".

Derivative financial instruments

In this category, the Group discloses derivative financial instruments – interest rate swaps, currency swaps, index swaps, currency forwards, interest rate options, currency options, share index options, currency, interest rate and index futures and commodity derivatives.

All purchases and sales that require delivery within the time frame established by regulation or market convention ("regular way") are recognised as spot transactions. Transactions that do not meet the "standard way" settlement criteria are treated as financial derivatives.

The Group records unrealised gains and losses from the revaluation of derivative instruments to their fair values and net interest income in the statement of comprehensive income line "*Net profit/(loss) from financial instruments held for trading and exchange rate differences*".

Embedded derivatives

An embedded derivative is a component of a hybrid contract which also includes a non-derivative host contract. As a result of such a contract, some of the cash flows of such combined instrument change in the same way as for the derivative itself. If a hybrid contract contains a host contract which is an asset and falls within the scope of IFRS 9, the whole contract is treated as a single instrument from an accounting perspective, with the embedded derivative not separated, i.e. the Group analyses the cash flows of the whole asset and the business model, from which the asset was acquired.

If a hybrid contract contains a host contract which is not within the scope of IFRS 9, embedded derivatives are separated and recognised as separate derivatives unless there is a close relationship between the risks and economic characteristics of the derivative and the risks and economic characteristics of the host contract and if the embedded derivative recognised separately meets the definition of a derivative and if the primary contract is not accounted for at fair value, the changes in which are recognised in the statement of comprehensive income. If an embedded derivative is separated, the host contract is recognised in accordance with other standards.

5. Hedging derivatives

Within implementation of IFRS 9, the Group has decided to continue using the original accounting under IAS 39 in the reporting of hedging derivatives. Hedging derivatives are derivatives designed in the Group's strategy to hedge certain risks and which meet all classification criteria for hedging derivatives under international accounting standards.

Notes to the Consolidated Financial Statements for the Year Ended 31 December 2023

Prepared in Accordance with International Financial Reporting Standards
as Adopted by the European Union (in thousands of EUR)

Preparation of hedge documentation is required for hedge recognition. Formal hedge documentation is prepared at the inception date of the hedge and contains the following:

- Risk management objectives and strategy and how hedges fit into the Group's risk management;
- Type of hedges;
- Nature of hedged risks;
- Identification of the hedged item;
- Identification of the hedging instrument;
- Testing hedge effectiveness (description of testing method, retrospectively and prospectively).

To ensure that a hedge is effective, the change in the fair values or cash flows of the hedging and hedged instruments must be offsetting with the result being in the range 80% – 125%.

Retrospective testing shows whether the hedge was effective from the inception until to the current day. Prospective testing shows whether the effectiveness is expected in the future. The ineffective portion of a hedge is recognised in Note 4 under "*Net profit/(loss) from hedge accounting*".

The ineffectiveness of a hedging relationship may arise, for example, due to:

- The volatility of a short-term interest rate of the hedging derivative;
- Time discrepancy between the hedging derivative and hedged item;
- Using different discount curves.

The hedge is discontinued by:

- Voluntary termination;
- Sale, termination, exercise of the hedged instrument;
- The hedge ceased to meet the qualifying criteria.

Fair value hedges

Changes in the fair value of hedging derivatives which are regarded as fair-value hedges are recognised in the statement of comprehensive income together with any changes in the fair value of hedged assets or liabilities to which a hedge risk can be attributed. Hedge accounting is discontinued if the Group cancels the hedging relationship, the derivative instrument expires or is sold, terminated, or exercised, or when the hedging relationship no longer meets the criteria for fair-value hedge accounting.

The positive fair value of a hedging derivative is recognised in the statement of financial position, line "*Receivables from hedging derivatives*". The negative fair value of a hedging derivative is recognised in the statement of financial position, line "*Liabilities from hedging derivatives*". Any change in the fair value of a hedging derivative and a hedged instrument relating to the hedged risk is recognised in the statement of comprehensive income, line "*Net profit/(loss) from financial instruments held for trading and exchange rate differences*". Interest income and expenses related to the hedging derivative are recognised together with interest expenses related to the hedged instruments in the statement of comprehensive income as "*Net interest income and dividend income*" depending on the hedged item type.

Notes to the Consolidated Financial Statements for the Year Ended 31 December 2023

Prepared in Accordance with International Financial Reporting Standards
as Adopted by the European Union (in thousands of EUR)

Reclassifications in the statement of financial position:

The Group made a reclassification of "Change in the fair value of hedged items in interest rate risk hedging" item in the statement of financial position. This was only a change as regards presentation and has no impact on the balance sheet amount or the statement of profit and loss and other comprehensive income. The comparable period as at 31 December 2022 is adjusted as follows:

Reclassification	2022 (before reclassification)	Reclassification	2022 (after reclassification)
Financial assets measured at amortised cost	16 406 267	(7 874)	16 398 393
<i>Of which: Change in the fair value of hedged items in interest rate risk hedging – Loans and advances to customers</i>	-	(7 874)	(7 874)
Receivables from hedging derivatives	18 489	7 874	26 363
<i>Of which: Change in the fair value of hedged items in interest rate risk hedging – Loans and advances to customers</i>	(7 874)	7 874	-
Financial liabilities measured at amortised cost	19 945 223	(117 106)	19 828 117
<i>Of which: Change in the fair value of hedged items in interest rate risk hedging – Deposits from customers</i>	-	(117 106)	117 106
Liabilities from hedging derivatives	79 209	117 106	196 315
<i>Of which: Change in the fair value of hedged items in interest rate risk hedging – Deposits from customers</i>	(117 106)	117 106	-

Cash flow hedges

The Group uses derivative financial instruments – interest rate swaps to hedge the risk of the variability of future cash flows associated with floating rate assets, which could result in unexpected losses in the event of changes in interest rates on the interbank market. The structure of such derivatives is strictly adjusted to the structure of a secured loan, as a result of which the Group is not exposed to the risk of changes in interest rates and the risk of cash flows. The efficiency of such hedging transactions is regularly monitored and the hedges were efficient during the respective period.

The positive fair value of a hedging derivative is recognised in the statement of financial position, line "Receivables from hedging derivatives". The negative fair value of a hedging derivative is recognised in the statement of financial position, line "Liabilities from hedging derivatives". Only a change in the fair value of a hedging derivative is recognised in the statement of other comprehensive income, line "Cash flow hedges". Interest income and expenses related to the hedging derivative are recognised together with interest income related to the hedged instruments in the statement of comprehensive income as "Net interest income and dividend income".

Macro hedges

In macro hedges, the Group used the so-called carve-out to IAS 39 adopted by the European Union, which enables hedging of the interest rate risk of core deposits. The Group uses macro hedges for a dynamically changing portfolio of fixed loans and deposits, where it can periodically add hedging and hedging items. In this way, the Group hedges its interest rate risk, with the hedged items (designated part of the portfolio) being remeasured at fair value associated with movements in the risk-free interest rate (or benchmark rate). The fair value of the hedged portfolio of loans and deposits is recognised in Note "Receivables from hedging derivatives". The change in the fair value of the hedged portfolio of loans and deposits related to the hedged risk is recognised in the statement of comprehensive income in "Net profit/(loss) from financial instruments held for trading and exchange rate differences".

Notes to the Consolidated Financial Statements for the Year Ended 31 December 2023

Prepared in Accordance with International Financial Reporting Standards
as Adopted by the European Union (in thousands of EUR)

The positive fair value of the hedging derivative is presented in the statement of financial position in "Receivables from hedging derivatives". The negative fair value of the hedging derivative is recognised in the statement of financial position in "Payables from hedging derivatives". The change in the fair value of the hedging derivative and the hedged instrument attributable to the hedged risk is recognised in the statement of comprehensive income in "Net profit/(loss) from financial instruments held for trading and exchange rate differences". Interest income and expense from the hedging derivative are presented together with the interest expense and income of the hedged instrument in the statement of comprehensive income in "Net interest income and dividend income" depending on the type of a hedging item.

6. Financial liabilities measured at amortised cost (AC)

All liabilities of the Group, except for financial liabilities held for trading and hedging derivative financial liabilities, are measured at amortised cost. Subordinated debt is recognised under *Financial liabilities measured at amortised cost*.

Subordinated debt refers to the Group's external funds and, in the event of bankruptcy, composition or Group's liquidation, the entitlement to its repayment is subordinated to liabilities to other creditors. Interest expense paid on the received subordinated debt is recognised through the statement of comprehensive income in "Interest expense".

Subordinated debt is a financial liability initially measured at fair value, net of transaction costs. It is subsequently measured at amortised cost using the effective interest method, with interest expense recognised on an effective yield basis.

The Group issues debt securities as part of financial liabilities measured at amortised cost.

7. Financial liabilities measured at fair value through profit or loss (FVTPL)

The Group, within financial liabilities recognised at fair value through profit or loss, recognises short-sell debt securities ("short selling") and the negative fair value of derivatives from the portfolio of financial liabilities held for trading and securities issued by the Group, which the Group hedges and are remeasured to fair value due to the hedged risk.

f) Derecognition of financial instruments

The Group derecognises a financial asset only when the contractual rights to the cash flows from the asset expire; or it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another party. If the Group neither transfers nor substantially retains all the risks and rewards of ownership and continues to control the transferred asset, the Group recognises its retained interest in the asset and an associated liability for amounts it may have to pay.

If the Group substantially retains all the risks and rewards of ownership of a transferred financial asset, the Group continues to recognise the financial asset and also recognises a collateralised borrowing for the proceeds received.

If the financial assets are modified resulting in a significant change in cash flows (see "Modification of financial instruments"), the original asset is derecognised and a new financial asset is recognised.

The Group derecognises financial liabilities only when the Group's obligations are discharged or cancelled, or when they expire.

If debt instruments are exchanged between the borrower and the creditor with significantly different terms, the Group derecognises the original financial liability and recognises a new financial liability. The Group proceeds similarly if there is a fundamental change in the terms of the existing financial liability or part of it.

g) Modification of financial instruments

Modification under IFRS 9 represents a change in the contractual cash flows of the loan/asset on the basis of a change in the contractual terms. If the modification meets the following qualitative or quantitative criteria (substantial modification), it leads to derecognition of the original loan or other asset and recognition of a new one.

Notes to the Consolidated Financial Statements for the Year Ended 31 December 2023

Prepared in Accordance with International Financial Reporting Standards
as Adopted by the European Union (in thousands of EUR)

The Group defines qualitative criteria as follows:

- Change in loan currency,
- Changes that cause the SPPI test to fail,
- Change in the type of a financial asset (eg loan for a debt security).

The Group defines the quantitative criteria as follows:

- Extending maturity by more than 50% and over 2 years (cumulative), and/or
- Change in the amortised cost (NPV before and after change using the original effective interest rate) of more than 10% or less than 10%, but more than EUR 100 000.

In the event that a modification does not result in the obligation to derecognise the loan/asset, the Group is required to recognise gains or losses on modifications. Gain or loss is equal to the difference between NPV from the new (modified) cash flow and current book value recorded in Note 9 "Net modification profit/(loss)".

h) Fair value of financial instruments

The fair values of financial assets and financial liabilities are determined as follows:

- The fair values of financial assets and financial liabilities with standard terms and conditions traded on active liquid markets are determined with reference to quoted market prices (includes listed redeemable notes, bills of exchange, debentures and perpetual notes).
- The fair values of derivative instruments are calculated using quoted prices. Where such prices are not available, a discounted cash flow analysis is performed using the applicable yield curve for the duration of the instruments for non-optional derivatives, and option pricing models for optional derivatives. Foreign currency forward contracts are measured using quoted forward exchange rates and yield curves derived from quoted interest rates matching the maturities of the contracts. Interest rate swaps are measured at the present value of future cash flows estimated and discounted based on the applicable yield curves derived from quoted interest rates. Fair value of derivative instruments is also subject to credit loss allowances.
- The fair values of other financial assets and financial liabilities (excluding those described above) are determined in accordance with generally-accepted pricing models based on discounted cash flow analysis.
- *Level 1* – fair value measurements are those derived from quoted prices (unadjusted) in active markets for identical assets or liabilities;
- *Level 2* – fair value measurements are those derived from inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices);
- *Level 3* – fair value measurements are those derived from valuation techniques that include inputs for the asset or liability that are not based on observable market data (unobservable inputs – fixed credit markup/deduction, available financial statements, etc.).

Insofar as market prices are available (which is mainly the case for securities traded on the stock exchange and active markets), the Group classifies the respective financial instrument based on an observable market price into Level 1. If the security is not traded on the stock exchange or the NBS benchmark for the security is not disclosed, the Group measures the security at fair value derived from inputs other than quoted prices.

An analysis of the amount of financial instruments recognised at fair value divided according to their fair value measurement levels is disclosed as "*Fair value of financial instruments*".

With respect to the definition of the fair value of financial instruments not remeasured to fair value, the Group applies the net present value method using the prime interest rates of individual currencies disclosed by central banks, which approximate market rates adjusted for an average mark-up for systematic risk.

Notes to the Consolidated Financial Statements for the Year Ended 31 December 2023

Prepared in Accordance with International Financial Reporting Standards
as Adopted by the European Union (in thousands of EUR)

Transfers between valuation levels

If the security is measured at fair value derived from quoted prices – Level 1 and the security is removed from trading on the stock exchange as well as from the NBS benchmark, the Group transfers such security to Level 2.

If at the initial recognition, the security was measured primarily at a theoretical price – Level 2, the Group changes the security's grouping from Level 2 to Level 1 by making the first deal on the stock exchange and disclosing its price. If the security is not traded in the following days and the security's price is not disclosed, such security will be transferred back to Level 2.

i) Sale and repurchase agreements – repo transactions

Debt securities sold under sale and repurchase agreements ("repo transactions") are recorded as assets in the statement of financial position, line "*Financial assets measured at amortised cost*", and the counterparty liabilities are included in "*Financial liabilities measured at amortised cost*".

Debt securities purchased under agreements to purchase and resell ("reverse repos") are recorded as assets in the statement of financial position, line "*Financial assets measured at amortised cost*".

The difference between the sale and repurchase price is treated as interest and accrued evenly over the life of the repo agreement using the effective interest rate.

j) Non-current tangible and intangible assets

Non-current tangible and intangible assets are stated at historical cost less accumulated depreciation/amortisation together with accumulated impairment losses. Non-current assets are depreciated using the straight-line method based on the estimated useful life. Tangible assets in progress, land, and artwork are not depreciated.

The estimated useful economic lives (in years) are set out below:

Machinery and equipment, computers, vehicles	Up to 6
Software	Up to 17
Fixtures, fittings and equipment	6 – 10
Energy machinery and equipment	10 – 15
Optical network	30
Buildings and structures	Up to 40

k) Goodwill

Goodwill represents the excess of the cost over the fair value of the identifiable assets, liabilities and contingent liabilities of the acquired entity as at the acquisition date. Goodwill is initially recognised at cost and subsequently adjusted for accumulated impairment losses. Goodwill is tested once or several times a year if events or changes in circumstances indicate that its value has been impaired pursuant to IAS 36 – Impairment of Assets. Impairment of goodwill cannot be reversed in the following reporting periods.

l) Impairment of tangible and intangible assets

At each reporting date, the Group reviews the carrying amounts of its tangible and intangible assets to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of any impairment loss.

The recoverable amount is the higher of the fair value less costs to sell and the present value of future cash flows expected to derive from the asset. If any of the amounts above exceeds the carrying amount, there is no need to estimate the other amount. If the estimated recoverable amount of an asset is lower than its carrying amount, the carrying amount of the asset shall be reduced to equal the recoverable amount. The impairment loss shall be recognised directly through the statement of comprehensive income.

Notes to the Consolidated Financial Statements for the Year Ended 31 December 2023

Prepared in Accordance with International Financial Reporting Standards
as Adopted by the European Union (in thousands of EUR)

m) Leases

In accordance with IFRS 16, a contract is, or contains, a lease if the contract transfers the right to control the use of an identified asset over a certain period of time in exchange for consideration. The Parent Company leases premises for banking activities under standard lease agreements with a defined rent. These agreements do not include variable lease payments. For such contracts, the new model requires the lessee to recognise a right-of-use asset presented in Note 22 "*Non-current tangible assets and right-of-use assets*" and a lease liability presented in Note 28 "*Financial liabilities measured at amortised cost*". The right-of-use asset is depreciated and the liability accrues interest. This results in a front-loaded pattern of expense for most leases, even when the lessee pays constant annual rentals. When determining the amount of a lease liability, the Group takes into consideration all liabilities, including options to extend or shorten the contract. The exercising of an option always depends on the specific situation. The new Standard introduces a number of limited scope exceptions for lessees which include:

- Leases with a lease term of 12 months or less and containing no purchase options, and
- Leases where the underlying asset has a low value ('small-ticket' leases).

The Group applies both exceptions. Lease payments for short-term leases of 12 months or less are recognised in the statement of comprehensive income in the period for which they are paid. The same accounting policy is applied for the lease of low-cost assets. The Group considers low-cost assets to be assets with a cost not exceeding EUR 5 000.

The Group as a lessor

The Group as a lessor initially assesses whether the lease takes the form of a finance lease or an operating lease.

For the classification of a lease, the Group makes an overall assessment of whether the lease transfers substantially all the risks and rewards of ownership of the asset. If substantially all the risks and rewards are transferred, the lease is classified as a finance lease. Otherwise, the lease is classified as an operating lease. One indicator of a finance lease is a lease term that lasts for almost the entire useful life of the asset.

The Group recognises lease payments under operating leases on a straight-line basis over the lease term in Note 6 "*Other operating profit/(loss)*" under "*Income from non-banking operations*".

The Group as a lessee

The Group leases real estate and other similar assets (branch business premises, parking spaces, data centre, etc.) as part of a longer-term lease.

Information on leased assets is stated in Note 22 "*Non-current tangible assets and right-of-use assets*" under "*Land and buildings – Right-of-use assets*". Information on leases where the Group is a lessee is presented in Note 43 "*Lease and lessee*" (IFRS 16).

n) Non-current assets held for sale

When the carrying amount is recovered through a sale transaction rather than through continuous use, non-current assets are classified as held for sale. This condition is considered to be met only if the sale is highly probable and the assets (or assets for disposal) are readily available for sale and, in addition, management has undertaken to perform the sale. The sales transaction must be completed within twelve months.

Non-current assets held for sale are measured at the lower of their carrying amount and fair value less selling costs and are reported under "*Non-current assets held for sale*".

o) Provisions

The amount of provisions is recognised as an expense and liability when the Group has legal or constructive obligations as a result of past events, it is probable that an outflow of resources embodying economic benefits will be required to settle such obligation and a reasonable estimate of the amount of the resulting loss can be made, provisions for liabilities are recognised as an expense or a liability. Any loss resulting from the recognition of a provision is recognised in the statement of comprehensive income for the period.

Notes to the Consolidated Financial Statements for the Year Ended 31 December 2023

Prepared in Accordance with International Financial Reporting Standards
as Adopted by the European Union (in thousands of EUR)

p) Provision for employee benefits

The Parent Company has a long-term employee benefit program comprising a lump-sum retirement benefit. As at 31 December 2023, the Parent Company had 3 349 employees included in the program (31 December 2022: 3 324 employees).

The method of calculating the liability applies actuarial calculations, based on employee's age, number of years worked, employee turnover, mortality tables, and discount rates.

The employee benefit costs are assessed using the projected unit credit method with actuarial valuation at the reporting date, measured as the present value of the estimated future cash outflows discounted by interest approximating yield on investment grade fixed income securities. Gains and losses from the post-employment defined benefit obligation are charged to the statement of comprehensive income in the current year in "General administrative expenses". Discount from the liability in this provision is recognised in the current period in the statement of comprehensive income under "Interest expense". The provision for employee benefits is recognised in the statement of financial position as "Provisions".

The Group also has a defined contribution plan for employees. All company contributions are included in personnel expenses in Note 7 "General administrative expenses".

q) Accrued interest

Accrued interest income and expense related to financial assets and liabilities are presented as at the reporting date together with the corresponding assets and liabilities in the statement of financial position.

r) Recognition of income and expenses

Income represents an increase in economic benefits during the reporting period in the form of an asset appreciation or a reduction in liabilities resulting in equity increase and are other than those relating to shareholder contributions.

Expense represents a decrease in economic benefits during the reporting period in the form of decrease or impairment of assets, impairment or rise of liability resulting in equity decrease and are other than those relating to the distribution of profit to shareholders.

The Group assesses each contract and product terms and conditions on an individual basis when recognising income and expense:

- Service or other fulfilment for which the reward is received or paid;
- The period in which the income or expense are to be recognised;
- Correct income and expense amount to be recognised depending on product terms and conditions or contract;
- Correct recognition of all discounts and rebates related to received or provided service;
- Significant financial component, if any;
- Non-financial services;
- Client rewards;
- Uncertain income.

1) Interest and interest-related charges and fees

Paid interest-related fees and commissions are transaction costs. Transaction costs represent incremental expenses that are part of an effective interest rate which can be directly added to acquisition, issue or disposal of financial assets or liabilities. Incremental expense would not arise without acquisition, issue or disposal of the financial instruments.

Received interest-related fees and commissions are initial fees related to the acquisition/provision of financial instrument including compensation for activities such as for the assessment of debtor financial status, assessment and evidence of guarantees and other hedging measurements, preparation and processing of documents and closing of transaction.

The effective interest rate is the rate that exactly discounts estimated future cash payments or receipts through the expected life of the financial instrument or a shorter period.

Notes to the Consolidated Financial Statements for the Year Ended 31 December 2023

Prepared in Accordance with International Financial Reporting Standards
as Adopted by the European Union (in thousands of EUR)

Interest income and expenses, and interest-related charges arising on all interest-bearing instruments except for "*Financial assets held for trading*" are accrued in the statement of comprehensive income using the effective interest method.

Interest income from "*Financial assets held for trading*" is recognised in the statement of comprehensive income in Note 1 "*Net interest income and dividend income*".

Interest income/(expense) from securities includes revenues from coupons with fixed and floating rates, and amortised discount or premium.

If the Group is a contractual party with deferred payment for received or provided services, income or expense are recognised individually in interest income or expense in the amount related to the service price.

2) Fee and commission income/expense

Fees and commissions are recognised as expense or income depending on whether the service is provided on a one-off basis or for a specified period. If a service is received or provided during a specified period, fees and commissions are recognised during that period on an accrual basis as earned. Fees paid and received for a one-time service are recognised immediately. These are fees that are not attributable to the acquisition or issue of financial instruments, but rather are fees the Group collects or pays for the provision of a specific service. Unaccrued fees include current account maintenance services, execution of payment orders, loan management, provision of information, carrying out instructions to buy and sell securities for customers, management of customer security portfolios, etc. This category also includes commissions received for mediation of insurance for customers. Accrued fees include fees for guarantees. Fees and commissions are recognised in the statement of comprehensive income in Note 2 as "*Net fee and commission income*" from financial assets and liabilities not measured at fair value.

The Group applies IFRS 15 to customer contracts if:

- The parties have agreed to the contract;
- It is possible to identify the rights of each party regarding the provision of services;
- It is possible to identify payment terms;
- The contract has a commercial substance;
- It is probable that the Group will receive consideration for the service provided.

In the contract, the Group identifies each obligation to deliver a service or several various services. Each such delivery of a different service is assessed and reported separately by the Group. Revenue is recognised when the service is delivered, i.e. the Group has fulfilled its obligation and the customer has the opportunity to benefit from the delivered service. Revenue is recognised on a one-off basis if it is a one-off service or sequentially if the service is delivered sequentially. A transaction price is set for each service delivery. If the Group receives a consideration from the client but a portion or full amount is expected to be returned, the revenue is not recognised and the consideration received is recognised as a liability. If the transaction price provides the client or the Group with a significant element of financing the delivery of the service, the financing component and the price of the service are recognised separately.

3) Dividend income

Dividend income is recognised in the statement of comprehensive income when the dividend is approved to the Group in Note 1 "*Net interest income and dividend income*".

4) Income to be partially returned

Received income, part of which the Group promised to return, is recognised as liability that is measured as at each financial statement date on contractual and probability basis.

s) Basic and diluted earnings per share

The Group reports earnings per share attributable to the holders of each class of share. The Group calculated earnings per share as profits attributable to each class of shares divided by the weighted average number of each class of shares outstanding during the reporting period.

The profit attributable to each class of shares is determined based on the face value of each class of shares in relation to the percentage of the total face value of all shares.

Notes to the Consolidated Financial Statements for the Year Ended 31 December 2023

Prepared in Accordance with International Financial Reporting Standards
as Adopted by the European Union (in thousands of EUR)

t) Taxation and deferred tax

The Group calculates income tax in accordance with the provisions of the relevant legislation of the Slovak Republic, based on taxable profit. Taxable profit differs from profit as reported in the statement of comprehensive income because it excludes items of income or expenses that are taxable or deductible in other years and it further excludes items that are never taxable or deductible. The Group's current tax liability is calculated using the tax rates that have been enacted or substantively enacted by the reporting date.

The Group analyses impacts resulting from the implementation of global minimum tax rules (Pillar II). Global tax rules (Pillar II) apply to entities that are part of a multi-national group of companies that reported a consolidated profit of EUR 750 000 thousand or more in at least two reporting periods of the four preceding reporting periods. Given the high tax burden, the Group does not expect any negative financial impact from the implementation of these rules. The Group has applied an exemption from IAS 12 and does not recognise or disclose information on deferred tax assets and liabilities related to income tax under Pillar II.

The Amendment to the Act on the Special Levy on Regulated Entities became effective on 1 January 2024 laying down the obligation for banks to pay the special levy as of 2024. The levy will be paid via prepayments on a monthly basis, at a coefficient of 0.025, which represents a rate of 30% p.a. of the profit/loss adjusted to comply with Slovak Accounting Standards and by a coefficient reflecting the share of income from banking operations in total income. The special levy of regulated entities is a tax-deductible expense. The levy rate will be gradually reduced by 5% p.a. over the 2025 – 2027 period, and will be 4.356% as of 2028.

The Group recognises deferred income tax using the balance sheet method when temporary differences arise between the tax values of assets or liabilities and their carrying amounts for the purposes of financial reporting. The Group analysed the impact of the introduction of the special bank levy on deferred taxes. Based on the analysis, the Group identified two areas where the special bank levy has an impact on deferred tax, namely:

- Lease liabilities and lease receivables that comprise a temporary difference when calculating the special levy;
- Remeasurement of securities from the portfolio measured at fair value through other comprehensive income. Profit/(loss) on the sale of securities is subsequently included in the base for the special levy calculation.

The Group assessed the impact of the above two areas on deferred tax and given the immateriality of such an impact as at 31 December 2023, the Group did not recognise a deferred tax adjustment due to the bank levy.

For other items of deferred tax, the Group applied the expected tax rate for the following years, ie 21%. Deferred tax liabilities are generally recognised for all taxable temporary differences. Deferred tax assets are recognised to the extent that it is probable that future taxable profit will be available against which the deductible temporary differences can be utilised.

Deferred tax assets and liabilities are offset when there is a legally-enforceable right to offset current tax assets against current tax liabilities and when they relate to income taxes levied by the same taxation authority and the Group intends to settle its current tax assets and liabilities on a net basis.

On 1 January 2023, the Group implemented Amendments to IAS 12 "Income Taxes" and began recognising deferred tax on transactions that upon initial recognition give rise to equal amounts of taxable and deductible temporary differences. Lease transactions (right-of-use and lease liability) meet this condition at the Group. The Group calculated the impact of introduction of this change as at 1 January 2023 and recognised the full amount (EUR 175 thousand) in retained earnings from previous years.

The Group recognises the due corporate income tax in the statement of financial position line "Current tax asset" or "Current tax liability" and the deferred tax in "Deferred tax asset" or "Deferred tax liability".

The Group pays various local taxes and value added tax (VAT). Various non-deductible local taxes are recognised in the statement of comprehensive income line "General administrative expenses" and VAT on the acquisition of non-current tangible and intangible assets is included in the cost of non-current tangible and intangible assets.

Notes to the Consolidated Financial Statements for the Year Ended 31 December 2023

as Adopted by the European Union (in thousands of EUR)

III. SEGMENT REPORTING

When reporting by segment, the Group applies IFRS 8 – Operating Segments. The accounting principles related to the reported segments are consistent with the Group’s accounting principles.

The basis for classifying by segment is an internal principle for the Parent Company’s management that is customer oriented. It also reflects the segmentation principle of the majority shareholder (Raiffeisen Bank International AG). The segmentation applied by the Parent Company is as follows:

- Corporate clients
- Financial institutions and public sector
- Retail customers
- Investment Banking and Treasury
- Equity investments and others

Corporate clients include all resident and non-resident companies, including state-owned companies. In terms of products, corporate clients were mainly provided with investment and operating loans in the form of instalment credits or overdraft facilities, factoring and documentary financing, project financing of commercial real estate projects, office premises, construction of shopping centres etc.

Financial institutions and public sector include:

Banks/Multinationals, which include all local and international banks and their majority-owned subsidiaries in the country and institutions such as the World Bank, EBRD, EIB, IMF, and KfW. In terms of products on the side of assets, exposures to banks mainly included nostro accounts and term deposits made. On the side of liabilities, they included mainly loro accounts, term deposits received and loans received from banks.

Brokers & Asset Management Companies, which include foundations, all broker houses, mutual fund companies, leasing companies, investment banks, and other similar entities. Insurance companies include, for example, pension funds. These entities are mainly provided with investment and operating loans.

Public Sector, which includes all government entities, ministries, municipalities, and similar institutions. Corporations that are owned by the public sector (state-owned) are shown under the corporate clients segment. Banks that belong to the government are defined as financial institutions. Securities of the Slovak Republic are disclosed in the Investment Banking and Treasury segment. Embassies and trade representatives are shown in this segment.

Retail Customers consist of Individuals (Consumers), which include all consumer customers, from low-income to high-income. The retail customers segment also includes micro businesses. For private banking, individuals are defined locally, with special treatment to individually manage their assets. In terms of products, retail customers – micro businesses and sole traders – are mainly provided with operating loans called BusinessÚverTB Expres, BusinessÚverTB Hypo and BusinessÚverTB Variant, company credit cards (VISA Standard/Visa Gold) and other products.

Retail Customers – Households are mainly provided with mortgage loans, equity home loans, hypotékaTB, Bezúčelový úverTB Classic, Bezúčelový úverTB Garant, private credit cards (Visa Standard/Visa Gold/Visa Platinum) and other products. Retail customers place their financial funds mainly in current accounts and term deposits.

Treasury and Investment Banking consist of business transactions conducted on the Parent Company’s own account and risk originated from managing market risk positions like FX-dealing, securities and derivatives trading, money market trading, liquidity management and funding, strategic placement positioning (investment portfolio), interest rate gapping (maturity transformation).

Equity investments and others represent transactions with subsidiaries (eg dividend income), settlement from MREL debt securities, and costs of subordinated debt.

Segment reporting is based on the schemes of contribution margins that are calculated as a basis for the management of the Parent Company. In these schemes, revenues and expenses are allocated under the principles of causality, i.e. revenues and expenses are allocated to individual segments based on their place of origin.

Notes to the Consolidated Financial Statements for the Year Ended 31 December 2023

Prepared in Accordance with International Financial Reporting Standards
as Adopted by the European Union (in thousands of EUR)

"*General administrative expenses*" consist of direct and indirect expenses. Direct expenses (personnel expenses and other administrative expenses) are allocated per individual segment and indirect expenses are allocated in line with the approved ratios.

"*Special levy of selected financial institutions*" was allocated to individual segments according to the daily balances of all liabilities and to all segments.

The structure of items presented in Note III "Segment reporting" is consistent with similar items of the statement of comprehensive income.

Geographically, operating profit was primarily generated by the provision of banking services in the Slovak Republic. Some assets and liabilities are placed outside the Slovak Republic. The summary of the most significant exposures of total assets and liabilities to customers in foreign countries is included in "*Foreign assets and liabilities*". The Group decided not to report the total amount of revenues from foreign entities owing to their immateriality.

The Parent Company's management monitors interest income of individual segments on a net basis.

IV. OTHER NOTES

1. Net interest income and dividend income

	2023	2022
Interest income calculated using the effective interest rate:	708 726	343 847
From loans and advances to banks measured at amortised cost	141 975	19 669
From loans and advances to customers measured at amortised cost	490 683	293 841
From finance lease	13 978	10 947
From debt securities measured at amortised cost	51 339	18 555
From debt securities measured at fair value through other comprehensive income	809	1 764
From derivatives – hedge accounting, interest rate risk	9 942	(929)
Other interest income:	657	7 757
From debt securities held for trading	482	139
From derivatives held for trading	106	476
From financial liabilities	2	7 068
From other interest income	67	74
Interest expense:	(305 060)	(30 024)
On deposits from banks	(95 594)	(533)
On deposits from customers	(95 128)	(8 942)
On subordinated debts	(7 601)	(3 324)
On liabilities from debt securities issued by the Bank measured at amortised cost	(58 266)	(9 055)
On derivatives – hedge accounting, interest rate risk	(46 595)	1 073
On liabilities from debt securities designated as measured at fair value through other comprehensive income	(78)	(72)
On loans and deposits measured at amortised cost (including negative interest)	(12)	(8 156)
On lease liabilities	(691)	(551)
On other interest expense	(1 095)	(464)
Net interest income	404 323	321 580
Dividend income:	40	40
From dividends from financial assets measured at fair value through other comprehensive income	40	40
Net interest and dividend income	404 363	321 620

An increase in interest income during 2023 primarily resulted from increased interest income from loans to banks and customers in relation to the increase in interest rates on the financial market. This also resulted in increased costs, ie interest expense on deposits from banks and customers.

2. Net fee and commission income

	2023	2022
Total fee and commission income:	232 100	218 274
Fee and commission income related to IFRS 15	226 262	213 013
From payment transfers business	144 776	132 445
From credit processing business	19 118	22 575
From securities business	18 714	16 779
From activities regarding investment and pension fund management	31 855	31 656
From activities regarding mediation for third parties	8 584	6 877
From other banking services	3 215	2 681
Other fee and commission income	5 838	5 261
From guarantee business	5 838	5 261
Total fee and commission expenses:	(65 133)	(60 361)
From payment transfers business	(54 218)	(52 874)
From credit processing business	(1 959)	(1 908)
From securities business	(1 737)	(1 739)
From activities regarding investment and pension fund management	(64)	(28)
From activities regarding mediation for third parties	(211)	(340)
From other banking services	(6 942)	(3 470)
From guarantees business	(2)	(2)
Net fee and commission income	166 967	157 913

Notes to the Consolidated Financial Statements for the Year Ended 31 December 2023

Prepared in Accordance with International Financial Reporting Standards
as Adopted by the European Union (in thousands of EUR)

3. Net profit/(loss) from derecognition of financial assets and liabilities not measured at fair value through profit or loss

	2023	2022
Net profit/(loss) from derecognition of financial assets and liabilities measured at amortised cost:		
	<u>(3 499)</u>	-
Profit/(loss) from loans and advances sold	1	-
Profit/(loss) from debt securities sold	(3 500)	-
Net profit/(loss) from derecognition of financial assets measured at fair value through other comprehensive income:		
	<u>(323)</u>	<u>223</u>
Profit/(loss) from debt securities sold	(323)	223
Total	<u><u>(3 822)</u></u>	<u><u>223</u></u>

4. Net profit/(loss) from financial instruments held for trading and exchange rate differences

	2023	2022
Interest rate contracts – securities:	<u>2 469</u>	<u>1 604</u>
Revaluation to fair value	(199)	(127)
Profit/(loss) from securities sold	2 668	1 731
Interest rate transactions – loans and advances to customers:	<u>-</u>	<u>(354)</u>
Revaluation to fair value	-	(354)
Interest rate contracts – derivatives:	<u>(546)</u>	<u>3 141</u>
Realised profit/(loss) from derivatives	-	(1)
Revaluation to fair value	(546)	3 142
Net profit/(loss) from hedge accounting:	<u>(349)</u>	<u>15</u>
Revaluation to fair value of hedging instruments - Interest rate derivatives	36 816	(161 512)
Revaluation to fair value of hedging instruments - Debt securities	38 873	(18 090)
Revaluation to fair value of hedging instruments - Liabilities from debt securities	(28 846)	74 112
Revaluation to fair value of hedging instruments - Loans to customers	25 411	(7 874)
Revaluation to fair value of hedging instruments - Deposits from customers	(72 603)	113 379
Currency contracts:	<u>9 925</u>	<u>7 275</u>
Realised profit/(loss) from derivatives	9 662	6 164
Revaluation to fair value of derivatives	263	1 111
Foreign exchange differences	<u>29 304</u>	<u>27 364</u>
Total	<u><u>40 803</u></u>	<u><u>39 045</u></u>

5. Net profit/(loss) from non-trading financial instruments mandatorily measured at fair value through profit or loss

	2023	2022
Interest rate contracts – securities:	<u>1 310</u>	<u>914</u>
Revaluation to fair value	1 310	914
Loans and advances	<u>276</u>	<u>(468)</u>
Revaluation to fair value	276	(468)
Total	<u><u>1 586</u></u>	<u><u>446</u></u>

Notes to the Consolidated Financial Statements for the Year Ended 31 December 2023

Prepared in Accordance with International Financial Reporting Standards
as Adopted by the European Union (in thousands of EUR)

6. Other operating profit/(loss)

	2023	2022
Income from non-banking operations	4 252	3 487
Other operating income	2 237	2 252
Net loss from disposal of non-current tangible and intangible assets	(206)	(418)
Other operating expenses	(3 325)	(4 207)
Total	<u>2 958</u>	<u>1 114</u>

7. General administrative expenses

	2023	2022
Personnel costs:	<u>(160 535)</u>	<u>(140 718)</u>
Wages and salaries	(113 042)	(100 162)
Social security costs	(40 843)	(36 052)
Other social expenses	(5 783)	(5 570)
(Creation)/release of provisions for employee benefits	(867)	1 066
Other administrative expenses:	<u>(77 052)</u>	<u>(68 229)</u>
Costs of premises	(10 322)	(10 931)
Costs of information technology	(26 856)	(24 232)
Communication costs	(2 260)	(2 170)
Legal and consultancy costs*	(11 485)	(11 241)
Advertising and entertainment expenses	(16 007)	(12 749)
Consumption of stationeries	(501)	(540)
Transport and processing of cash	(675)	(750)
Travel costs	(1 490)	(1 246)
Education of employees	(2 391)	(1 999)
Other taxes and charges	(253)	(340)
Other expenses	(4 812)	(2 031)
Depreciation and amortisation of non-current tangible and intangible assets:	<u>(35 807)</u>	<u>(35 120)</u>
Non-current tangible assets and right-of-use assets	(22 003)	(21 717)
of which: right-of-use assets	(11 093)	(11 167)
Non-current intangible assets	(13 804)	(13 403)
Total	<u>(273 394)</u>	<u>(244 067)</u>

* "Legal and consultancy costs" include the fee for the statutory audit in the amount of EUR 306 thousand (2022: EUR 319 thousand), of which other audit-related assurance services in the amount of EUR 38 thousand (2022: EUR 46 thousand) that were related to audit procedures related to NBS prudential returns and FINREP and COREP returns, agreed upon procedures under Act No. 566/2001 Coll. on Securities and Investment Services, the preparation of the Extended Report for the NBS, other assurance audit services in the amount of EUR 139 thousand (2022: EUR 73 thousand) related to the review of interim financial statements of the Parent Company, and other non-audit services in the amount of EUR 11 thousand (2022: EUR 0 thousand).

8. Contribution to the Resolution Fund and the Deposit Guarantee Fund

	2023	2022
Contribution to the Resolution Fund and the Deposit Guarantee Fund		
Contribution to the Resolution Fund*	(5 959)	(6 202)
Contribution to the Deposit Guarantee Fund	(1 384)	(5 026)
Total	<u>(7 343)</u>	<u>(11 228)</u>

* The Resolution Fund represents an annual contribution for banks within the EU that are members of the Banking Union, the amount of which depends on the size and risk profile of the Group as defined in the Bank Recovery and Resolution Directive 2016/59/EU.

Notes to the Consolidated Financial Statements for the Year Ended 31 December 2023

Prepared in Accordance with International Financial Reporting Standards
as Adopted by the European Union (in thousands of EUR)

9. Net modification profit/(loss)

	2023	2022
Financial assets measured at amortised cost:	(218)	(6)
Net modification profit/(loss) – Stage 1	(112)	(1)
Net modification profit/(loss) – Stage 2	(101)	(6)
Net modification profit/(loss) – Stage 3	(5)	1
Total	(218)	(6)

10. (Creation)/release of provisions

	2023	2022
(Creation)/release of provisions for:	451	10 297
(Creation)/release of provisions for litigations	451	10 297
Total	451	10 297

During 2022, based on expectations, the Group released a significant portion of the provision for litigation in the amount of EUR 9 909 thousand.

11. Impairment allowances for financial assets and provisions for commitments and guarantees provided

	2023	2022
Provisions for commitments and guarantees provided (Stage 1):	(1 067)	(847)
(Creation)/release	(1 067)	(847)
Provisions for commitments and guarantees provided (Stage 2):	3 010	(1 937)
(Creation)/release	3 010	(1 937)
Provisions for commitments and guarantees provided (Stage 3):	194	311
(Creation)/release	194	311
Total	2 137	(2 473)

	2023	2022
Impairment allowances for financial assets without increase in credit risk since initial recognition (Stage 1):	(18 040)	(17 010)
(Creation)/release	(18 040)	(17 010)
Impairment allowances for financial assets with significant increase in credit risk since initial recognition, but not credit impaired (Stage 2):	5 508	(16 971)
(Creation)/release	5 508	(16 971)
Impairment allowances for financial assets, credit impaired (Stage 3):	(19 038)	(7 465)
(Creation)/release	(19 038)	(7 465)
Impairment allowances for financial assets (POCI):	(164)	(364)
(Creation)/release	(164)	(364)
Total	(31 734)	(41 810)

Detailed information on impairment allowances for expected credit losses is disclosed in Note 19 "Financial assets measured at fair value through other comprehensive income" and in Note 20 "Financial liabilities measured at amortised cost".

Notes to the Consolidated Financial Statements for the Year Ended 31 December 2023

Prepared in Accordance with International Financial Reporting Standards
as Adopted by the European Union (in thousands of EUR)

12. Impairment allowances for non-financial assets

Movement in impairment allowances for non-financial assets:

	2023	2022
(Creation)/release of impairment allowances for non-current tangible assets	(318)	902
(Creation)/release of impairment allowances for non-current intangible assets	(1 658)	(4 652)
(Creation)/release of impairment allowances for other assets	104	(421)
Total	<u>(1 872)</u>	<u>(4 171)</u>

13. Net profit/(loss) from non-current assets held for sale

	2023	2022
Net profit/(loss) on assets held for sale	-	4 867
Total	<u>-</u>	<u>4 867</u>

14. Income tax

	2023	2022
Current tax expense	(62 509)	(51 134)
Deferred tax (expense)/income	(1 213)	6 139
Total	<u>(63 722)</u>	<u>(44 995)</u>

Slovak legal entities are obliged to report taxable income and remit corporate income taxes thereon to the respective tax authorities. In 2023, the corporate income tax rate amounted to 21% (2022: 21%).

Pre-tax profit tax differs from the theoretical tax that would arise using the applicable income tax rate as follows:

	2023	2022
Profit before tax	300 882	231 771
Theoretical tax calculated using the tax rate of 21% (2022: 21%)	63 185	48 672
Non-taxable income	(35)	(1 018)
Tax non-deductible expense	1 969	2 836
Impairment allowances and provisions, net	(1 312)	(4 857)
Additional tax of prior periods	(105)	(638)
Income tax expense	<u>63 722</u>	<u>44 995</u>
Effective tax for the reporting period	<u>21.18%</u>	<u>19.41%</u>

Notes to the Consolidated Financial Statements for the Year Ended 31 December 2023

Prepared in Accordance with International Financial Reporting Standards
as Adopted by the European Union (in thousands of EUR)

Deferred tax assets and liabilities as at 31 December 2023 and as at 31 December 2022 relate to the following items:

	<i>Book value</i>	<i>Tax value</i>	<i>Permanent difference</i>	<i>Temporary difference</i>	2023	2022
Deferred tax assets						
Financial assets measured at amortised cost	17 553 173	17 773 069	103 785	116 111	24 383	25 088
Financial assets measured at fair value through other comprehensive income	103 690	108 164	-	4 474	940	2 405
Financial liabilities measured at amortised cost	20 253 582	20 260 518	-	6 936	1 457	2 640
Non-current tangible assets and right-of-use assets	157 460	170 356	-	12 896	2 708	4 036
Other assets	52 465	58 422	1 022	4 935	1 035	712
Provisions	62 059	909	32 176	28 974	6 085	5 287
Other liabilities	59 346	20 771	2 423	36 152	7 592	6 542
Total					44 200	46 710
Net deferred tax asset/(liability)					44 200	46 710

The Group regularly tests the recognition of loan receivables upon their write-off for tax purposes and based on the results, it adjusts the percentage of the estimate of tax deductibility of impairment allowances for credit losses. Accordingly, as at 31 December 2023 the Group did not recognise a deferred tax asset in the amount of EUR 23 011 thousand (31 December 2022: EUR 22 425 thousand) with regard to part of the impairment allowances for expected credit losses and provisions for commitments and guarantees provided.

15. Basic and diluted earnings per share

2023	<i>Ordinary shares Face value EUR 800</i>	<i>Ordinary Shares Face value EUR 4 000</i>	<i>Preference shares Face value EUR 4</i>
Comprehensive income after tax in the reporting period attributable to:			
Weighted average number of shares outstanding during the period	183 229	31 664	27 672
	60 616	2 095	1 830 871
Basic and diluted earnings per share	3 023	15 115	15.1
2022	<i>Ordinary shares Face value EUR 800</i>	<i>Ordinary Shares Face value EUR 4 000</i>	<i>Preference shares Face value EUR 4</i>
Comprehensive income after tax in the reporting period attributable to:			
Weighted average number of shares outstanding during the period	132 148	22 837	19 943
	60 616	2 095	1 829 528
Basic and diluted earnings per share	2 178	10 890	10.9

Information on the method of calculation of earnings per share is stated in Note II. Principal Accounting Policies (s).

Notes to the Consolidated Financial Statements for the Year Ended 31 December 2023

Prepared in Accordance with International Financial Reporting Standards
as Adopted by the European Union (in thousands of EUR)

16. Cash, cash balances at central banks and other demand deposits

	2023	2022
Cash on hand	223 137	213 268
Cash balances at central banks	3 954 534	4 435 285
Other demand deposits	27 865	13 080
Total	4 205 536	4 661 633

The obligatory minimum reserve is recognised as interest-bearing deposits under the regulations of the National Bank of Slovakia and are part of the item "Cash balances at central banks". The amount of the reserve depends on the amount of deposits received by the Group. The Parent Company's ability to use the reserve is limited in accordance with the applicable legislation. Therefore, it is not included in "Cash and cash equivalents" for the purpose of preparing the statement of cash flows (see the "Consolidated statement of cash flows").

17. Financial assets held for trading

	2023	2022
Positive fair value of financial derivatives held for trading	24 405	42 892
Interest rate contracts	19 894	36 910
Currency contracts	4 511	5 982
Debt securities	4 577	4 354
Government bonds	4 577	4 354
Total	28 982	47 246

18. Non-trading financial assets mandatorily measured at fair value through profit or loss

	2023	2022
Equity securities, debt securities and other securities with variable yield	15 449	13 919
Equity securities	6 079	5 033
Debt securities	5 484	4 897
Mutual fund certificates*	3 886	3 989
Loans and advances to customers	21 782	19 217
Loans and advances provided to corporate clients	21 782	19 217
Total	37 231	33 136

* The Group held equity securities (mutual fund certificates) for which the option of measurement at fair value through other comprehensive income (FVOCI) could not be used because these securities have a defined maturity and do not meet the definition of an equity instrument under IAS 32. As at 31 December 2023, the value of the above mutual fund certificates was EUR 831 thousand (31 December 2022: EUR 894 thousand).

Notes to the Consolidated Financial Statements for the Year Ended 31 December 2023

Prepared in Accordance with International Financial Reporting Standards
as Adopted by the European Union (in thousands of EUR)

19. Financial assets measured at fair value through other comprehensive income

	2023	2022
Debt securities	101 503	185 938
Government bonds	-	53 496
Bonds issued by a bank sector	64 213	74 792
Bonds issued by other sectors	37 290	57 650
Equity instruments	2 187	109
Equity securities	2 187	109
Total	103 690	186 047

During 2023, the Group harmonised the recognition of an investment in Monilogi s. r. o. with its parent company. In 2023, the investment is included in the *Financial assets measured at fair value through other comprehensive income* portfolio. In 2022, the investment was recognised in Note 25 "Other assets".

Classification of debt securities measured at fair value through other comprehensive income as at 31 December 2023:

	Gross carrying amount	Impairment allowances	Net carrying amount
Debt securities	101 565	(62)	101 503
Government bonds	-	-	-
Bonds issued by a bank sector	64 242	(29)	64 213
Bonds issued by other sectors	37 323	(33)	37 290
Total	101 565	(62)	101 503

Classification of debt securities measured at fair value through other comprehensive income as at 31 December 2022:

	Gross carrying amount	Impairment allowances	Net carrying amount
Debt securities	186 108	(170)	185 938
Government bonds	53 517	(21)	53 496
Bonds issued by a bank sector	74 804	(12)	74 792
Bonds issued by other sectors	57 787	(137)	57 650
Total	186 108	(170)	185 938

Notes to the Consolidated Financial Statements for the Year Ended 31 December 2023

Prepared in Accordance with International Financial Reporting Standards
as Adopted by the European Union (in thousands of EUR)

The transfer of corporate client exposures from Stage 2 to Stage 1 is due to improved macroeconomic scenarios during 2023 (compared to 2022). The transfer of retail client exposures from Stage 1 to Stage 2 was due to the implementation of the holistic ESG flag for exposures secured by real estate with a possible threat by one of physical risks. The increase in the significant impairment of credit risk (SICR) parameter from 70% to 90% is the main reason for the transfer of retail client exposures from Stage 2 to Stage 1.

The following table presents the decreases in the impairment allowance from the stages for financial assets measured at amortised cost and contingent liabilities and other off-balance sheet items as at 31 December 2023:

	<i>From Stage 2 to Stage 1</i>	<i>From Stage 1 to Stage 2</i>	<i>From Stage 3 to Stage 2</i>	<i>From Stage 2 to Stage 3</i>	<i>From Stage 3 to Stage 1</i>	<i>From Stage 1 to Stage 3</i>

	2023	2022
As at 1 January	12 875	12 875
Additions	-	-
Impairment allowance	-	-
Carrying amount	12 875	12 875

Goodwill of EUR 9 021 thousand arose on the acquisition of Doplnková dôchodková spoločnosť Tatra banky, a.s. in 2006, and goodwill of EUR 3 199 thousand arose on the acquisition of a 51.5% ownership interest in Tatra-Leasing s.r.o. in 2015.

Goodwill in Doplnková dôchodková spoločnosť Tatra banky, a.s. arose from the business combination, mainly from expected future income from pension fund management as well as expected synergies from the integration of the company into the Group structure. These benefits are not reported separately as the resulting future economic benefits cannot be reliably measured separately.

In 2021, the Group acquired a 100% share in IMPULS-LEASING Slovakia s.r.o. Goodwill in the amount of EUR 655 thousand arose on the acquisition.

Notes to the Consolidated Financial Statements for the Year Ended 31 December 2023

Prepared in Accordance with International Financial Reporting Standards
as Adopted by the European Union (in thousands of EUR)

The Group assessed the recoverable amount of goodwill at the balance sheet date and did not identify any impairment.

Insurance coverage

The Parent Company concluded an insurance contract for assets and business disruption (International Insurance Program) under which its buildings are covered up to EUR 31 223 thousand, operational-commercial facilities up to EUR 7 335 thousand, business disruption up to EUR 2 000 thousand, loss of assets up to EUR 2 500 thousand, insurance of electronics (local amendment to the fronting contract), under which the Parent Company's ATMs and cash dispensers (cashomats) are covered up to EUR 4 086 thousand, and liability insurance – damage to third party assets, life and health, expenses for an insured person's defence with an insured amount of EUR 10 000 thousand. Vehicles are insured under a motor hull insurance contract up to a maximum risk of EUR 4 658 thousand.

23. Current tax asset

	2023	2022
Tax asset – current	66	434
Total	66	434

24. Deferred tax asset

	2023	2022
Tax asset – deferred	44 200	46 702
Total	44 200	46 702

Net deferred income tax asset resulted mainly from temporary deductible differences described in Note 14 "Income tax".

25. Other assets

	2023	2022
Prepayments and other deferrals	25 271	31 203
Inventories	1 005	891
Lease-related advances	24 388	11 471
Other assets	1 801	2 023
Total	52 465	45 588

26. Non-current assets held for sale

	2023	2022
Non-current assets held for sale	-	531
Total	-	531

During 2023, the Group reclassified real estate from non-current assets held for sale back to own use in the amount of EUR 531 thousand.

27. Financial liabilities held for trading

	2023	2022
Negative fair value of financial derivatives held for trading	22 458	48 989
Interest rate contracts	18 711	35 076
Currency contracts	3 747	13 913
Liabilities from debt securities held for trading	-	4 716
Total	22 458	53 705

Notes to the Consolidated Financial Statements for the Year Ended 31 December 2023

Prepared in Accordance with International Financial Reporting Standards
as Adopted by the European Union (in thousands of EUR)

28. Financial liabilities measured at amortised cost

Financial liabilities measured at amortised cost by product group are as follows:

	2023	2022
Deposits from banks	2 549 688	3 324 862
Current accounts and interbank settlement	4 200	3 211
Money-market business	608	11 842
Loans received	2 408 569	3 173 957
Subordinated debt	136 311	135 852
Deposits from customers	15 694 256	15 447 584
Current accounts and settlement	12 277 206	12 828 664
Time deposits	3 416 659	2 618 351
Savings deposits	253	310
Loans received	138	259
Change in the fair value of hedged items in interest rate risk hedging – Deposits from customers*	(44 503)	(117 106)
Liabilities from debt securities	1 998 383	1 161 538
Debt securities issued – covered bonds	933 859	432 074
Debt securities issued – other bonds	1 064 524	729 464
Other financial liabilities <i>of which: Lease liabilities</i>	55 758 43 682	57 106 46 955
Total	20 253 582	19 873 984

*Information on the reclassification of "Change in the fair value of hedged items in interest rate risk hedging – Deposits from customers" item is described in detail in (e) Financial Instruments: Reclassifications in the statement of financial position.

Classification of deposits measured at amortised cost by customer segment as at 31 December 2023 and 31 December 2022:

	2023	2022
Banks	2 549 688	3 324 862
Public sector	500 099	457 329
Corporate clients	5 560 237	5 442 726
Retail clients	9 633 920	9 547 529
Total	18 243 944	18 772 446

Under the TLTRO programme (targeted longer-term refinancing operations), the Parent Company received 4 loans from the central bank in the amount of EUR 3 137 000 thousand. As at 31 December 2023, outstanding borrowings included in the balance sheet under the third series of the targeted longer-term refinancing operations (TLTRO-III) programme due to the central bank amount to EUR 2 285 200 thousand. As collateral for the received deals, the Parent Company provided purchased securities and an issued covered bond collateralised by provided mortgage loans, housing mortgage loans and non-purpose loans pledged by real estate in the total amount of EUR 2 935 068 thousand.

As at 31 December 2023 and 31 December 2022, the Parent Company analysed whether it expected to meet the lending targets based on its current lending volumes and projections and believes that it has reasonable certainty that it will meet these targets. In 2023, the Parent Company made an early payment of the TLTRO operations in the amount of EUR 440 000 thousand (2022: EUR 10 000 thousand).

Based on an analysis of the observable conditions of comparably collateralised refinancing sources available on the market, the Parent Company concludes that the conditions for the TLTRO III direct government programmes do not constitute a significant market advantage. TLTRO III financial liabilities are recognised and measured as financial instruments in accordance with IFRS 9, as TLTRO instruments are understood as a separate market organised by the central bank in the context of its money market policy.

In addition to the above covered bonds, the Parent Company issued a covered bond (face value of EUR 970 000 thousand, book value of EUR 903 129 thousand), which was not sold but pledged as collateral within the TLTRO programme. The above covered bonds are included in the off-balance sheet accounts.

The Parent Company issues covered bonds as one of the financing sources on the capital markets. For the purposes of meeting the requirements for eligible liabilities, the Parent Company also issued unsecured non-subordinated bonds.

The bond-related rights are governed by generally-binding legal regulations and relevant documentation (securities prospectus, issue or final terms), which the issuer publishes on its website.

All bonds issued by the Parent Company are book-entry, bearer and freely transferable. They are traded on the Bratislava Stock Exchange.

29. Liabilities from hedging derivatives

	2023	2022
Negative fair value of financial derivatives for fair value hedging of interest rate risk	196 582	196 315
Interest rate contracts	196 582	196 315
Total	196 582	196 315

A detailed overview of liabilities from hedging derivatives is shown in Note 38 "Fair value hedges related to hedging transactions".

30. Provisions

Movements in provisions for contingent liabilities as at 31 December 2023:

	<i>As at 1 January 2023</i>	<i>Creation/ (Release)</i>	<i>Usage</i>	<i>As at 31 December 2023</i>
Provisions for guarantees and loan commitments without increase in credit risk since initial recognition (Stage 1)	7 099	1 067	-	8 166
Provisions for guarantees and loan commitments with significant increase in credit risk since initial recognition (Stage 2)	4 804	(3 010)	-	1 794
Specific provision for guarantees and loan commitments – for individually and collectively measured items (Stage 3)	567	(194)	-	373
Litigation (Note 42)	22 362	753	(549)	22 566
Provisions for employee benefits	4 489	1 111	(41)	5 559
Employee provisions	20 377	12 053	(9 048)	23 382
Other provisions	304	(85)	-	219
Total	60 002	11 695	(9 638)	62 059

Movements in provisions for contingent liabilities as at 31 December 2022:

	<i>As at 1 January 2022</i>	<i>Creation/ (Release)</i>	<i>Usage</i>	<i>As at 31 December 2022</i>
Provisions for guarantees and loan commitments without increase in credit risk since initial recognition (Stage 1)	6 252	847	-	7 099
Provisions for guarantees and loan commitments with significant increase in credit risk since initial recognition (Stage 2)	2 867	1 937	-	4 804
Specific provision for guarantees and loan commitments – for individually and collectively measured items (Stage 3)	878	(311)	-	567
Litigation (Note 42)	33 681	(10 046)	(1 273)	22 362
Provisions for employee benefits	5 377	(869)	(19)	4 489
Employee provisions	19 796	8 247	(7 666)	20 377
Other provisions	9 535	(9 231)	-	304
Total	78 386	(9 426)	(8 958)	60 002

Key assumptions used in the actuarial calculation of provisions for employee benefits:

Annual discount rate	4.05%
Future actual annual rate of salary increases	2.00%
Annual employee turnover	3.00% – 8.50%
Retirement age	According to the applicable legislation

Long-term provisions for employee benefits are calculated using the valid mortality tables issued by the Statistical Office of the Slovak Republic.

Notes to the Consolidated Financial Statements for the Year Ended 31 December 2023

Prepared in Accordance with International Financial Reporting Standards
as Adopted by the European Union (in thousands of EUR)

The Group does not have pension arrangements separate from the state pension system of the Slovak Republic. Pursuant to the Slovak legal regulations, an employer is obliged to pay contributions to social security, sickness insurance, health insurance, accident insurance, unemployment insurance, and contributions to a guarantee fund set as a percentage of the assessment base. These expenses are recognised in the statement of comprehensive income in the period in which an employee was entitled to a salary.

31. Current tax liability

	2023	2022
Current tax liability	14 788	7 516
Total	14 788	7 516

Preference shares	1 829 267	18 159	1 847 426

Notes to the Consolidated Financial Statements for the Year Ended 31 December 2023

Prepared in Accordance with International Financial Reporting Standards
as Adopted by the European Union (in thousands of EUR)

Description of rights:

Each holder of an ordinary share is the Parent Company's shareholder. Each shareholder enjoys their fundamental shareholder rights resulting from the Commercial Code and from the Parent Company's Articles of Association, mainly:

- The right to a share of the Parent Company's profit (dividend), based on the proportion of the total face value of their shares to the total face value of all shareholders;
- The right to attend the General Meeting, vote at the General Meeting, ask for information thereon and explanations regarding the Parent Company's issues and/or issues concerning the controlled entities and related to the agenda of the General Meeting, make motions at the General Meeting; and
- The right to a share of the liquidation balance.

Each holder of preference shares has similar rights as holders of ordinary shares; the only difference is that the preference shares are not equipped with the right to vote at a General Meeting, except for cases in which the law assigns a voting right to such shares. A preferential right to dividends is attached to preference shares and solely consists of the right to a dividend amounting to a fixed multiple of the dividend awarded at the distribution of profit to shareholders holding the ordinary shares according to the formula: $DPA = 1.001 \times DKA800/200 = 1.001 \times DKA4000/1000$ (DPA – preferential dividend per preference share at a face value of EUR 4, DKA800 – dividend per ordinary share at a face value of EUR 800, and DKA4000 – dividend per ordinary share at a face value of EUR 4 000).

A voting right exercisable at the General Meeting is determined by the face value of the share, where one vote is assigned to each share at a face value of EUR 800 and five voting rights are assigned to each ordinary share at a face value of EUR 4 000. If the law requires voting by the preference shareholders, their voting is conducted separately and each preference share at a face value of EUR 4 is assigned one vote.

Ordinary shares are publicly tradable on stock markets, preference shares are not publicly tradable. The Parent Company creates a share premium fund from ordinary and preference share premiums.

Reserve fund and other funds: In 1992, the Parent Company established a reserve fund at 10% of the share capital, which is intended to cover losses. The reserve fund was replenished annually with 10% of net profit, up to 20% of the Parent Company's share capital, but not less than the minimum reserve fund stipulated by the applicable law. The Parent Company created a special-purpose reserve fund in accordance with the Methodological Instruction of the Ministry of Finance of 1990 from exchange rate differences of foreign capital resulting from devaluation. Its use is intended to cover the losses from banking transactions.

In August 2018, the Parent Company issued subordinated AT1 capital investment certificates in the amount of EUR 100 000 thousand with the interest rate of 12M EURIBOR + 6.50% meeting the requirements for Tier 1 capital of the Group.

The AT1 capital investment certificate is a perpetual instrument without the obligation to deliver cash. The Group may, at its discretion, repay the certificate no earlier than 5 years after issue. Early repayment must be approved by the Supervisory Board of the Parent Company and the regulator. AT1 capital investment certificates comply with the definition of an equity instrument in accordance with IAS 32.

34. Valuable items received for custody and management

	2023	2022
Valuable items received for custody	18 118	19 802
Merchandise and warehouse trust receipts	13 258	16 273
Gold	4 860	3 529
Total	18 118	19 802

The Group recognises valuable items received for custody and management at fair values. Valuable items received for custody and management are not owned by the Group. As a result, they are not part of its assets.

Notes to the Consolidated Financial Statements for the Year Ended 31 December 2023

Prepared in Accordance with International Financial Reporting Standards
as Adopted by the European Union (in thousands of EUR)

In addition to the amounts in the table above, in accordance with the Parent Company's function of a depositary for Tatra Asset Management, správ. spol., a.s. ("TAM"), as at 31 December 2023, the Parent Company recognised deposited securities managed in TAM mutual funds in the amount of EUR 1 473 079 thousand (as at 31 December 2022: EUR 1 466 073 thousand) in the off-balance sheet accounts. In addition, through Tatra Asset Management, správ. spol., a. s., the Group manages 31 open-end mutual funds with a net asset value of EUR 2 466 706 thousand (31 December 2022: EUR 2 578 696 thousand) and through Doplnková dôchodková spoločnosť Tatra banky, a.s. it manages 6 supplementary pension funds with a net asset value of EUR 1 140 573 thousand (31 December 2022: EUR 965 210 thousand.)

35. Sale and repurchase agreements

	2023	2022
Reverse repo deals (creditor)		
Loans and advances to banks	52 652	45 224
Total	52 652	45 224

As part of the reverse repo deals, the Group received government debt securities as collateral at fair value of EUR 43 880 thousand.

36. Assets pledged as collateral

Liabilities secured by the Group's assets:

	2023	2022
Deposits from banks measured at amortised cost – Received loans from the National Bank of Slovakia	2 285 200	3 084 655
Liabilities from debt securities	933 859	432 074
Financial liabilities held for trading – Negative fair value of financial derivatives held for trading	5 533	777
Liabilities from borrowed securities	-	4 715
Total	3 224 592	3 522 221

Collateral attributable to the aforementioned liabilities comprised the following assets recognised in the statement of financial position:

	2023	2022
Other demand deposits	1 334	1 831
Loans and advances to banks measured at amortised cost	127 820	-
Loans and advances to customers measured at amortised cost	2 922 626	2 674 859
Debt securities held for trading	4 577	4 354
Debt securities measured at fair value through other comprehensive income	95 175	130 540
Debt securities measured at amortised cost	1 533 274	1 989 446
Total	4 684 806	4 801 030

Other pledged assets without a liability:

	2023	2022
Debt securities measured at amortised cost	931 261	64 656
Total	931 261	64 656

As at 31 December 2023, the Parent Company determined the volume of mortgage loans usable as collateral for future issues of covered bonds in the amount of EUR 1 816 144 thousand (31 December 2022: EUR 2 281 128 thousand).

The Group opened margin accounts as collateral for its derivative transactions. The amount of cash deposited by the Group in margin accounts depends on the volume and risk exposures of the deals made. The amount of cash deposited in margin accounts equals the amount of assets pledged as collateral and is recognised under "Financial assets measured at amortised cost".

Notes to the Consolidated Financial Statements for the Year Ended 31 December 2023

Prepared in Accordance with International Financial Reporting Standards
as Adopted by the European Union (in thousands of EUR)

Due to the received TLTRO loan, the Group pledged government bonds and bonds issued by the banking sector held in the portfolio of securities measured at amortised cost in the amount of EUR 1 602 701 thousand in favour of the NBS (31 December 2022: EUR 2 046 152 thousand). The Group does not have the possibility to draw an intraday loan for the pledged securities (31 December 2022: the Group did not have the possibility to draw). With the exception of the TLTRO loan, the Group did not draw any other financing from the central bank as at 31 December 2023 (31 December 2022: also no drawing).

The Parent Company has determined the amount of highly liquid assets usable as collateral in the monetary policy operations of the European Central Bank, except for deposits with central banks and other banks for the following financial assets:

	2023 Face value	2023 Carrying amount
Government bonds	3 037 097	3 049 972
Bonds issued by other sectors	284 685	280 363
Total	3 321 782	3 330 335

37. Offsetting financial assets and liabilities

The disclosures set out in the tables below include financial assets and financial liabilities that are offset in the Group's statement of financial position or are subject to an enforceable/unenforceable master netting arrangement or a similar agreement that covers similar financial instruments, irrespective of whether they are offset in the Group's statement of financial position or not.

The following table provides an overview of framework agreements for offsetting the assets and liabilities as at 31 December 2023:

	<i>Asset/Liability in the statement of financial position</i>	<i>Value not offset in the statement of financial position: Financial instrument</i>	<i>Net value</i>
Assets:			
Positive fair value of financial derivates held for trading	72 197	72 063	134
Total assets	72 197	72 063	134
Liabilities:			
Negative fair value of financial derivates held for trading	204 062	72 063	131 999
Total liabilities	204 062	72 063	131 999

The following table provides an overview of framework agreements for offsetting assets and liabilities as at 31 December 2022:

	<i>Asset/Liability in the statement of financial position</i>	<i>Value not offset in the statement of financial position: Financial instrument</i>	<i>Net value</i>
Assets:			
Positive fair value of financial derivates held for trading	69 040	68 976	64
Total assets	69 040	68 976	64
Liabilities:			
Negative fair value of financial derivates held for trading	211 950	68 976	142 974
Total liabilities	211 950	68 976	142 974

Notes to the Consolidated Financial Statements for the Year Ended 31 December 2023

as Adopted by the European Union (in thousands of EUR)

38. Fair value hedges relating to hedging transactions

The Group uses interest rate swaps to hedge the interest rate risk related to issued debt securities – mortgage bonds and debentures from the debt securities portfolio and debt securities from the portfolio of financial assets measured at fair value through other comprehensive income. Changes in fair values of these interest rate swaps as a result of interest rate changes offset, to a large extent, changes in the fair values of issued mortgage bonds and debentures caused by changes in risk-free interest rates. Hedging was effective during the reporting period.

As at 31 December 2023, in relation to the above hedging instruments, the Group recognised a net profit in the amount of EUR 36 816 thousand. As at 31 December 2022, in relation to the hedging instruments, the Group recognised a net loss in the amount of EUR 161 512 thousand. As at 31 December 2023, the net loss from hedged items related to the hedged risk amounted to EUR 37 165 thousand. As at 31 December 2022, the Group recognised a net profit of EUR 161 527 thousand. Both items are recognised in Note 4 "Net profit/(loss) from financial instruments held for trading and exchange rate differences".

The following tables provide an overview of receivables and payables from hedging transactions as at 31 December 2023:

The table below shows the periods when cash flow hedges are expected:

	Up to 3 Months	More than 3 months, up to 1 year	More than 1 year, up to 5 years	More than 5 years
Financial derivatives for fair value hedging	-	128 000	2 392 891	1 795 360
Total interest rate transactions	-	128 000	2 392 891	1 795 360

Effects of hedge accounting on the financial position and performance – hedging instruments:

	Face value of the hedging instrument	Assets – Fair value of the hedging instrument	Liabilities – Fair value of the hedging instrument	Changes in fair value used for calculating hedge ineffectiveness
Interest rate risk	1 384 460	10 648	91 636	(10 376)
Micro financial derivatives for fair value hedging	1 384 460	10 648	91 636	(10 376)
Interest rate risk	2 931 792	37 696	104 947	47 192
Portfolio financial derivatives for fair value hedging	2 931 792	37 696	104 947	47 192

Effects of hedge accounting on the financial position and performance – hedged items:

	Assets – Carrying amount of the hedged item	Liabilities – Carrying amount of the hedged item	Carrying amount of the hedging instrument	Accumulated amount of fair value hedge adjustments included in the carrying amount	Changes in fair value used for calculating hedge ineffectiveness
Debt securities	688 901	-	686 460	22 430	38 873
Loans and advances	1 300 000	-	1 300 000	17 536	25 411
Deposits from customers	-	1 631 792	1 631 792	(44 503)	(72 603)
Debt securities issued	-	649 708	698 000	(46 177)	(28 846)
Hedged financial instruments	1 988 901	2 281 500	4 316 252	(50 714)	(37 165)

40. Fair value of financial instruments

Financial instruments measured at fair value

The fair value of financial instruments is the amount for which an asset could be exchanged, or a liability settled, between knowledgeable, willing parties in an arm's length transaction. Where market prices are available (in this case, in particular, for securities and derivatives traded on a stock exchange and on functioning markets), the fair value estimate is based on market prices. All other financial instruments were valued on the basis of internal valuation models, including present value or option price models, or an external expert opinion was used.

The following table shows a summary of financial instruments recognised at fair value divided into Levels 1 to 3 based on fair value measurements as at 31 December 2023:

<i>Financial assets at fair value</i>	<i>Level 1*</i>	<i>Level 2**</i>	<i>Level 3***</i>	<i>Total</i>
Financial assets held for trading	4 577	24 405	-	28 982
Positive fair value of derivative financial instruments held for trading	-	24 405	-	24 405
Debt securities	4 577	-	-	4 577
Non-trading financial assets mandatorily measured at fair value through profit or loss	-	11 563	25 668	37 231
Equity securities	-	6 079	-	6 079
Debt securities	-	5 484	-	5 484
Mutual fund certificates	-	-	3 886	3 886
Loans provided to customers	-	-	21 782	21 782
Financial assets measured at fair value through other comprehensive income	42 848	58 655	2 187	103 690
Equity instruments	-	-	2 187	2 187
Debt securities	42 848	58 655	-	101 503
Receivables from hedging derivatives	-	48 344	-	48 344
Positive fair value of derivative financial instruments for fair value hedging	-	48 344	-	48 344
Total	47 425	142 967	27 855	218 247
<i>Financial liabilities at fair value</i>	<i>Level 1*</i>	<i>Level 2**</i>	<i>Level 3***</i>	<i>Total</i>
Financial liabilities held for trading	-	22 458	-	22 458
Negative fair value of derivative financial instruments for trading	-	22 458	-	22 458
Debt securities and other fixed income securities	-	-	-	-
Liabilities from hedging derivatives	-	196 582	-	196 582
Negative fair value of derivative financial instruments for fair value hedging	-	196 582	-	196 582
Total	-	219 040	-	219 040

* Level 1 – derived from listed prices on active markets.

** Level 2 – derived from active markets other than prices for identical assets or liabilities.

*** Level 3 – inputs for assets or liabilities, which are not based on observable market data.

Notes to the Consolidated Financial Statements for the Year Ended 31 December 2023

as Adopted by the European Union (in thousands of EUR)

The following table shows a summary of financial instruments recognised at fair value divided into Levels 1 to 3 based on fair value measurements as at 31 December 2022:

<i>Financial assets at fair value</i>	<i>Level 1*</i>	<i>Level 2**</i>	<i>Level 3***</i>	<i>Total</i>
Financial assets held for trading	4 354	42 892	-	47 246
Positive fair value of derivative financial instruments for trading	-	42 892	-	42 892
Debt securities	4 354	-	-	4 354
Loans provided to customers	-	-	-	-
Non-trading financial assets mandatorily measured at fair value through profit or loss	-	9 930	23 206	33 136
Equity securities	-	5 033	-	5 033
Debt securities	-	4 897	-	4 897
Mutual fund certificates	-	-	3 989	3 989
Loans provided to customers	-	-	19 217	19 217
Financial assets measured at fair value through other comprehensive income	129 136	56 802	109	186 047
Equity instruments	-	-	109	109
Debt securities	129 136	56 802	-	185 938
Receivables from hedging derivatives	-	26 363	-	26 363
Positive fair value of derivative financial instruments for fair value hedging	-	26 363	-	26 363
Total	133 490	135 987	23 315	292 792
<i>Financial liabilities at fair value</i>	<i>Level 1*</i>	<i>Level 2**</i>	<i>Level 3***</i>	<i>Total</i>
Financial liabilities held for trading	4 716	48 989	-	53 705
Negative fair value of derivative financial instruments for trading	-	48 989	-	48 989
Debt securities and other fixed income securities	4 716	-	-	4 716
Liabilities from hedging derivatives	-	196 315	-	196 315
Negative fair value of derivative financial instruments for fair value hedging	-	196 315	-	196 315
Total	4 716	245 304	-	250 020

* Level 1 – derived from listed prices on active markets.

** Level 2 – derived from active markets other than prices for identical assets or liabilities.

*** Level 3 – inputs for assets or liabilities, which are not based on observable market data.

Movements between Level 1 and Level 2

During 2023, there were no movements in bonds measured at fair value that were transferred from Level 1 to Level 2 based on a change in the bond price source.

Notes to the Consolidated Financial Statements for the Year Ended 31 December 2023

Prepared in Accordance with International Financial Reporting Standards
as Adopted by the European Union (in thousands of EUR)

Movements in Level 3 financial instruments at fair value

If there is at least one significant parameter of the measurement that is not observable on the market, this instrument is assigned to Level 3 measured at fair value. The following table shows changes in the financial instruments at fair value whose valuation models are based on unobservable inputs:

	<i>As at 31 December 2022</i>	<i>Increase/ Decrease</i>	<i>Revaluation: Profit/loss</i>	<i>Revaluation: Other comprehen- sive income</i>	<i>As at 31 December 2023</i>
Mutual fund certificates	3 989	584	(687)	-	3 886
Equity securities	109	2 061	-	17	2 187
Loans and advances	19 217	2 290	275	-	21 782
Total	23 315	4 935	(412)	17	27 855

Qualitative information on financial instruments for Level 3 measurements:

<i>Financial instrument</i>	<i>Valuation method</i>	<i>Fair value</i>	<i>Significant unobservable inputs</i>	<i>Range of unobservable inputs</i>	<i>Positive sensitivity*</i>	<i>Negative sensitivity*</i>
Mutual fund certificates	Net asset value	3 887	Deduction	20 – 50%	389	(389)
Equity securities	Market value	2 187	-	-	219	(219)
Loans and advances		21 782	Credit and liquid markup	0 – 10%	2 178	(1 089)
Total		27 855			2 786	(1 697)

* Equity investments measured at net asset value – price deterioration between -10% and +10%.

Financial instruments recognised at amortised cost

For the purposes of valuation of non-impaired receivables to banks and customers, the Group uniformly implemented an approach applicable to the whole Group. For valuation of retail and corporate portfolios the method of discounting future cash flows until maturity is used.

For the retail portfolio, future cash flows are discounted by a rate that takes into consideration the actual market situation and specific risk factors of the respective retail sub-portfolios. For the corporate portfolio, future cash flows are discounted by a rate that takes into consideration the actual market situation and risk specific factors of the respective transactions.

The calculation of fair values of the respective transactions comprises of two essential steps:

1. Determination of future cash flows at the level of individual transactions representing the loan receivable;
2. Calculation of the respective discount rate that takes into consideration factors such as:
 - Market rates
 - Client's credit quality
 - Liquidity
 - Administration expenses

For the discounted future cash flows method, components of the discount factor taking into consideration a credit quality, level of liquidity costs and market rates change during the lifetime of the transaction (depending on the current situation at the time of the respective cash flows), while for example administrative costs are constant all the time at a level given by calibration at the beginning of the transaction.

As regards debt securities measured at amortised cost and liabilities from debt securities measured at amortised cost, if market prices are available, the Group classifies the securities to Level 1. If the security is not traded on the stock exchange or the NBS benchmark for the security is not disclosed, the Group measures the security at fair value derived from inputs other than quoted prices and classifies the security to Level 2.

For valuation of the defaulted portfolio, the Group recognises as fair value the net value of the respective exposures, which represents the gross amount less any impairment allowances.

Notes to the Consolidated Financial Statements for the Year Ended 31 December 2023

Prepared in Accordance with International Financial Reporting Standards
as Adopted by the European Union (in thousands of EUR)

Fixed interest liabilities to banks or customers were remeasured to fair values, which were different than their carrying amount in the statement of financial position, provided that their remaining maturity exceeded one year. Floating interest liabilities were taken into account only if the interest extension period was longer than 1 year. Only then the discounting on the basis of the anticipated interest rate in line with market rates will have a significant impact.

The Group used the income approach to calculate the fair value of its liabilities to banks and customers. Within the income approach, it applied the present value technique. The Group used the discounted rate calculated by the discount rate adjustment technique to discount future contractual cash flows.

41. Risk report

Credit risk

The Group bears a credit risk, i.e. the risk that the counterparty will not be able to fully repay the amounts owed at their maturity. The Group classifies loan exposure borne by the Group by setting limits of risk accepted with respect to one debtor, or a group of debtors, and with respect to individual countries. The aforementioned risks are monitored on a regular basis and reviewed at least annually. Exposure to one debtor, including banks and securities dealers, is also limited by partial limits set for balance sheet and off-balance sheet exposures, and by daily limits of exposure in relation to items traded, such as forward foreign currency contracts. The actual exposure is compared to set limits on a daily basis.

The loan exposure is managed based on regular analyses of the ability of debtors and potential debtors to repay the principal amount and interest and using potential adjustments to such loan limits. Credit risks are also partially managed by collaterals and guarantees received from private individuals or legal entities.

Retail debtors are assessed by the Group using the scoring models developed for individual products, or an individual client. Credit risk in the retail loan portfolio is managed using the following main tools: credit scoring, which is a tool used by the Group to estimate the expected loss by estimating the probability of loan default for private individuals and retail legal entities; and an important tool in credit quality management is the system of credit underwriting by risk assessment specialists, whose goal is to optimise revenues from the portfolio in relation to the risk borne by the Group. The regular monitoring of the existing loan portfolio quality and trends in the portfolio together with appropriate strategies to secure the quality of the existing portfolio are also a very important component that contributes to retaining the entire portfolio quality and the targeted level of risk costs of the Group.

When collecting receivables, the Group uses a very broad scale of tools and collection strategies depending on the type and amount of receivables. The Group uses both internal and external sources to collect receivables. In the event of an unsuccessful collection of receivables from clients, the receivables are subsequently forwarded to external agencies specialising in the enforcement of receivables via the courts. Receivables with higher amounts and specific receivables are dealt with by an in-house expert team in co-operation with the legal department and other professional units of the Group.

As part of credit risk monitoring and management, the Group also closely observes the area of exposure and residual risks.

Exposure risk represents the risk resulting from the concentration of the Group's transactions with an entity, a group of economically-related parties, state, geographical area, industry sector, collateral provider, etc. The risk is closely related to both exposures in the Banking Book and exposures in the Trading Book. To manage exposure risk effectively, the Group focuses on quality portfolio management and its adequate diversification while adhering to set exposure limits (large assets exposure and others). The Group also develops methods for exposure risk quantification.

Residual risk represents the risk stemming from the insufficient enforceability of rights arising to the Group from security received against credit risk. The Group eliminates this risk in particular by means of consistently observing legal and operational requirements, conservative valuation and revaluation methods, and by applying appropriate discounts depending on the type and quality of the received collateral.

The Group also bears a credit risk in trading with OTC derivatives. This risk is monitored on a daily basis and mitigated by collateral contracts which allow the Group to request additional collateral from the counterparty to ensure at least the current value of the derivative transactions with the counterparty. For counterparties that are not financial institutions, the Group requires, in addition to the current value, a potential future value of derivatives within the 10-day horizon. In the event of failure to provide the relevant collateral, the Group has the right to terminate all derivative transactions with the counterparty prematurely, offsetting the individual losses and gains, and the potential resulting loss to the client is realised against the collateral provided by the client.

Notes to the Consolidated Financial Statements for the Year Ended 31 December 2023

The scoring system of the Group's corporate clients (applied to the entire RBI Group) is based on a client's economic rating and complies with the rules of the Internal Rating Based Approach (IRB). The rating range has 28 grades from 1A to 10A for corporate clients, and 5 grades for project financing from 6.1 to 6.5.

The table below represents details of the rating scale:

Institution Rating Scale	10-Grade Rating Scale	28-Grade Rating Scale			Description
A1	0.5	1A	1B	1C	Minimum risk
A2	1.0	2A	2B	2C	Excellent credit rating
A3	1.5	3A	3B	3C	Very good credit rating
B1	2.0	4A	4B	4C	Good credit rating
B2	2.5	5A	5B	5C	Standard credit rating
B3	3.0	6A	6B	6C	Ordinary credit rating
B4	3.5	7A	7B	7C	Sub-standard credit rating
B5	4.0	8A	8B	8C	Significantly sub-standard credit rating
C	4.5	9A	9B	9C	Doubtful/high risk of default
D	5.0	10A			Defaulted

The summary below represents the net carrying amount of loans and advances to banks and loans and advances to customers by industry concentration risk:

	2023	2022
A. Agriculture, forestry and fisheries	321 913	260 234
B. Mining and quarrying	4 258	17 762
C. Industrial production	828 872	794 248
D. Supply of electricity, gas, steam and air-conditioning	326 900	492 543
E. Water supply	80 470	63 184

Sensitivity analysis of impairment allowances

The retail loan portfolio's sensitivity to the change of probability of default (PD) was tested by a 10% increase/decrease in the PD scenario. In the event of a 10% increase/decrease in PD, the impact on ECL of the retail loan portfolio would be +/- 2.3%.

The retail loan portfolio's sensitivity to the change in the loss given default (LGD) was tested by a 10% increase/decrease in the LGD scenario. If the LGD increases by 10%, the impact on ECL of the retail loan portfolio would be +7.4%. If the LGD decreases by 10%, the impact on the ECL of the retail loan portfolio would be -9.8%.

The corporate loan portfolio's sensitivity (Stage 1 and Stage 2) to the change of probability of default (PD) was tested by a 10% increase/decrease in the PD scenario. In the event of a 10% increase/decrease in PD, the impact on ECL of the corporate loan portfolio would be +/- 10%.

The corporate loan portfolio's sensitivity (Stage 1 and Stage 2) to the change in the loss given default (LGD) was tested by a 10% increase/decrease in the LGD scenario. In the event of a 10% increase/decrease in LGD, the impact on ECL of the corporate loan portfolio would be +/- 10%.

Non-performing exposures (NPE)

Non-performing exposures (NPE) are defined in the technical standard governing the reporting of forborne exposures and non-performing exposures, as issued by the EBA (European Banking Authority). Non-performing exposures include both defaulted (NPL) and non-defaulted exposures.

Based on changes (implementation of IFRS 9), in line with the EBA standard definition (FINREP ANNEX III REV1/FINREP ANNEX V), cash balances at central banks and other demand deposits and government and corporate bonds purchased to the Banking Book of the Group are part of the share of non-performing exposures, resulting in a decrease of the indicator.

The table below represents the summary of non-performing exposures as at 31 December 2023:

	<i>Gross carrying amount</i>	<i>Share of non-performing exposures</i>	<i>% coverage of non-performing exposures</i>
Loans and advances to banks	-	-	-
Loans and advances to customers	232 507	1.62%	57.38%
Public sector	-	-	-
Corporate clients	69 521	1.17%	49.74%
Retail clients	162 986	1.94%	60.63%
Debt securities	901	0.03%	100.00%
Total	233 408	1.07%	57.54%

The table below represents the summary of non-performing exposures as at 31 December 2022:

	<i>Gross carrying amount</i>	<i>Share of non-performing exposures</i>	<i>% coverage of non-performing exposures</i>
Loans and advances to banks	-	-	-
Loans and advances to customers	231 280	1.65%	62.17%
Public sector	-	-	-
Corporate clients	77 963	1.35%	65.63%
Retail clients	153 317	1.87%	60.39%
Debt securities	901	0.03%	100.00%
Total	232 181	1.08%	62.32%

Forborne exposures

This section applies exclusively to non-default exposures based on Article 178 CRR. In the business sphere, when credit conditions change for the benefit of the client, the Group differentiates between modified loans and forborne loans based on valid definitions in the technical standard (ITS) governing the reporting of forborne exposures and non-performing exposures, as issued by the EBA (European Banking Authority).

A key aspect when deciding whether a loan is forborne is in the business sector the client's financial situation at the time of the change in maturity or loan terms. If, on the basis of the client's creditworthiness (taking into account the internal early warning system), it can be assumed that the client has financial difficulties at the time of changing loan terms, and if the change is treated as easing of conditions, such loans are flagged as forborne exposures. If such a change is made to a loan or such a loan becomes overdue for more than 30 days and was previously considered to be defaulted but is subsequently considered as non-defaulted (under Article 178 CRR), the loan is considered to be a default exposure (NPE) regardless of whether there is a reason for default under Article 178 CRR. Such monitoring is performed over a two-year period after the loan is no longer considered to be defaulted. The decision as to whether the loan is classified as defaulted and/or forborne is not a reason for the creation of a specific impairment allowance.

Notes to the Consolidated Financial Statements for the Year Ended 31 December 2023

Prepared in Accordance with International Financial Reporting Standards
as Adopted by the European Union (in thousands of EUR)

Under IFRS 9, non-defaulted forbore exposures are automatically transferred to Stage 2 and are therefore subject to lifetime expected credit losses. The transfer back to Stage 1 is only possible after all of the exit criteria have been met (including a trial period in the retail segment) and, at the same time, criteria for the classification to Stage 2 are not met (quantitative or qualitative).

The Group may adjust the terms and conditions of repayment of its loan receivables if the client's financial situation is poor and the client would not be able to repay its obligations to the Group in real time.

For overdrafts, where an agreement on repayments of outstanding debt due is concluded – the contract is not prolonged, it is only transformed into an instalment loan after the expiry of the final maturity of the loan or after being declared as immediately due.

For instalment loans, repayment schedules are changed due to the client's inability to pay within the agreed deadlines. For retail loans, there is a possibility to apply for loan restructuring in the form of a temporary reduction of repayments, mostly for a period of 12 months, with subsequent changes to the original loan (extension of the maturity, change of the instalment amount) so as not to reduce the cash flows after termination of the credit relationship (i.e. there is no impairment).

The summary below represents the analysis of forbore exposures as at 31 December 2023:

	<i>Gross carrying amount</i>	<i>Impairment allowances</i>	<i>Net carrying amount</i>
Loans and advances to banks	-	-	-
Loans and advances to customers	119 591	(36 852)	82 739
Public sector	-	-	-
Corporate clients	82 758	(23 565)	59 193
Retail clients	36 833	(13 287)	23 546
Total	119 591	(36 852)	82 739

The summary below represents the analysis of forbore exposures as at 31 December 2022:

	<i>Gross carrying amount</i>	<i>Impairment allowances</i>	<i>Net carrying amount</i>
Loans and advances to banks	-	-	-
Loans and advances to customers	162 984	(41 297)	121 687
Public sector	-	-	-
Corporate clients	124 605	(28 956)	95 649
Retail clients	38 379	(12 341)	26 038
Total	162 984	(41 297)	121 687

Defaulted loan portfolio (NPL)

There is no definition of defaulted loans in the methodology of International Financial Reporting Standards. The Group also uses impaired loans as the equivalent for non-performing loans.

To determine the client's default, the Group mainly uses the following indicators, also depending on the client's segment: permanent delay in the repayment of a material portion of a receivable of more than 90 days, declaration of immediate maturity, bankruptcy or insolvency, a portion of the loan receivables from the client written off, legal restructuring, suspended interest on receivables, sale of the receivables from the client resulting in a loss or an anticipated loss from a deal. With respect to retail portfolio, the Group applies a limit of EUR 10, which must be exceeded by the amount of a receivable. With respect to retail portfolio, the Group applies a limit set at an absolute materiality threshold of EUR 100 and a relative materiality threshold of 1% of the gross carrying amount of all client credit exposures, which must be exceeded by the amount of a receivable. In the corporate portfolio, the Group applies a limit that depends on the default type. In the event of a permanent default of more than 90 days, the limit is set at EUR 500 and simultaneously 1% of the gross carrying value, in restructuring the limit of a change in the net present value is set at 1%, and for other types the receivable is assessed with no limit application.

Market risk

The Group is exposed to market risks. Market risks result from open positions from transactions with interest rate, currency, commodity and equity products that are subject to general and specific market changes. To assess the approximate level of market risk associated with the Group's positions, and the expected maximum amount of potential losses, the Group uses internal reports and models for individual types of risk faced by the Group. The Group uses a system of limits, the aim of which is to ensure that the level of risks the Group is exposed to at any time does not exceed the level of risks the Group is willing and able to accept. These limits are monitored on a daily basis.

For the risk management purposes, market risk is regarded as the risk of potential losses the Group may incur due to unfavourable developments in market rates and prices. To manage market risk, the Group uses a system of limits imposed on individual positions and portfolios.

As to the structure of trades, the Group primarily faces the following market risks:

- Currency risk; and
- Interest rate risk.

Market risks to which the Group faces insignificant exposure (face value does not exceed 0.1% of the Group's balance):

- Equity price risk;
- Commodity risk.

Currency risk

Currency risk represents the potential for loss resulting from unfavourable movements in foreign currency exchange rates. The Group manages this risk by determining and monitoring open position limits.

The currency position of the Group is monitored separately for each currency, as well as the group limit for specific currencies if monitoring is necessary, e.g. in the event of market turbulences. Limits for these positions are set in line with the RBI Group standards. Data on the Group's currency positions and on the compliance with the limits set by RBI are reported on a weekly basis.

In addition to the limit on an open foreign exchange position, the Group also sets *gamma* and *vega* limits on an option position for each currency pair subject to trading. The gamma limit sets the maximum allowable rate of change in the foreign exchange position from option contracts due to a change in the underlying exchange rate. The vega limit sets the maximum allowable rate of change in the value of options due to a change in the volatility of the underlying currency pair.

Positions from client option trades to currency pairs, where no *gamma and vega* limits on trading have been specified by the Group, are closed at the market, so as to ensure that the Group has no open position for this currency pair.

In addition, the Group has set a stop-loss limit for the overall foreign exchange position.

Notes to the Consolidated Financial Statements for the Year Ended 31 December 2023

Items in foreign currencies

The financial statements consist of the following assets and liabilities denominated in foreign currencies:

	2023	2022
Assets	147 295	158 338
Of which: USD	38 330	37 788
Of which: CZK	97 970	84 912
Of which: other currencies (PLN, HUF, GBP and other)	10 995	35 638
Liabilities	568 680	554 170
Of which: USD	361 492	388 633
Of which: CZK	92 816	65 413
Of which: other currencies (PLN, HUF, GBP and other)	114 372	100 124

The Group's net foreign exchange (FX) position of assets, liabilities and equity as at 31 December 2023 and 31 December 2022 was as follows:

	Net FX position as at 31 December 2023	Net FX position as at 31 December 2022
USD	(323 162)	(350 845)
CZK	5 154	19 499
Other (GBP, CHF, PLN, HUF and other)	(103 377)	(64 486)
Total net FX balance sheet position	(421 385)	(395 832)
USD	327 481	354 115
CZK	(5 053)	(18 210)
Other (GBP, CHF, PLN, HUF and other)	109 824	60 298
Total net FX off-balance sheet position*	432 252	396 203
Total net FX position	10 867	371

* Net foreign exchange (FX) off-balance sheet position includes spot transactions and FX derivatives (except for option contracts). Option contracts are reported as "option delta equivalents". The same approach is used to calculate the capital requirement.

Interest rate risk

Interest rate risk is the risk that the value of a financial instrument will fluctuate due to changes in market interest rates. The length of time for which the rate of interest is fixed on a financial instrument therefore indicates to what extent it is exposed to interest rate risk.

The Group controls and manages its interest rate risk for all trades, and for the Banking Book and the Trading Book separately. Interest rate risk is monitored and assessed on a daily basis. Interest rate risk in the Banking Book in terms of change in the Group's income is monitored and evaluated monthly, always as at the end of the month. Interest rate risk in the Banking Book in terms of changes in the economic value is monitored and evaluated on a daily basis.

To monitor interest rate risk, the Group uses the gap analysis method (interest GAP), method of market value sensitivity to yield curve shift by defined number of basis points (basis point value – BPV), method of interest yield sensitivity to yield curve shift by defined number of basis points and stop-loss limit to interest rate sensitive instruments.

The internal interest rate risk limits applicable in the Banking Book are set in the form of limits on open positions in each time band of the interest gap for each currency that is included in the Banking Book (mainly EUR and USD). The Group's limit on the interest rate risk of the Banking Book is set in the form of limits on the sensitivity of the overall position to the yield curve shifts (BPV) in the Banking Book, with a limit on the position concentration in one time basket and one currency.

Notes to the Consolidated Financial Statements for the Year Ended 31 December 2023

Prepared in Accordance with International Financial Reporting Standards
as Adopted by the European Union (in thousands of EUR)

The interest rate risk limits applicable in the Trading Book are set in the form of limits related to the sensitivity of the overall position to yield curve shifts (BPV). The limits are set for individual currencies included in the Trading Book. The loss resulting from interest rate variations is limited to stop-loss limit.

Market Risk Management regularly submits information on the actual amount of credit risk in individual currencies and information on the use of the Banking Book's credit risk limits to the Assets and Liabilities Committee (ALCO).

In the event of exceeding the set limit, the interest rate positions are closed by using both traditional and derivative financial instruments.

The following table represents the carrying amount of non-derivative financial instruments and the face value of derivative financial instruments with a floating interest rate as at 31 December 2023 and 31 December 2022:

	Non- derivative assets (2023)	Non- derivative liabilities (2023)	Derivatives (2023)	Non- derivative assets (2022)	Non- derivative liabilities (2022)	Derivatives (2022)

*The Group uses its own model to categorize the non-term deposits according to interest rate sensitivity, whereas these deposits are categorised for up to 10 years.

Notes to the Consolidated Financial Statements for the Year Ended 31 December 2023

Prepared in Accordance with International Financial Reporting Standards
as Adopted by the European Union (in thousands of EUR)

Equity price risk

Equity price risk arises from the Group's exposure to changes in equity investment prices. Equity price risk is determined at the Group level. Equity price risk is measured using individual exposures and by calculating and monitoring the overall equity investment position. Equity investment positions are reported at the level of the overall portfolio on a weekly basis.

Commodity risk

Commodity risk arises from the Group's exposure to changes in commodity prices. Commodity risk is determined at the Group level and is measured using positions in individual commodities. The sensitivity analysis is applied for the measurement and management of commodity risk.

Sensitivity analysis of market risks

The sensitivity analysis reflects the implications on the Group's profit/loss arising from the movements in market parameters (interest rates, exchange rates, share prices, etc.) by predetermined delta values. For monitoring and limiting of risk, the Group uses 100 basis points for interest rates, a 5% movement in exchange rates, and 50% movement in share prices, and 30% movement in commodity prices.

The GAP method sorts the Group's positions into baskets and examines the Group's final position in individual baskets. This method is used in interest rate risk management. The stress scenario is similar to the sensitivity analysis; however, it takes into consideration a marginal situation on the market. It combines movements in the market parameters so that these are the least favourable for the Group.

The table below shows the Group's sensitivity to movements in exchange rates, assuming negative movements in exchange rates by 5% to the detriment of the Group.

Change in the present value of assets and liabilities of the Group following the movements in exchange rates of the selected currencies to the detriment of the Group as at 31 December 2023 (in thousands of EUR):

	<i>Present value of exchange rate</i>	<i>Exchange rate in sensitivity scenario</i>	<i>Bank's position in the respective currency</i>	<i>Economic loss of the Bank for a given scenario with an impact on equity</i>
PLN	4.3395	4.5565	4 794	(240)
USD	1.1050	1.1603	4 303	(215)
JPY	156.3300	164.1465	1 387	(69)
NOK	11.2405	11.8025	1 116	(56)
SEK	11.0960	10.5412	(987)	(49)
Total			10 613	(629)

Change in the present value of assets and liabilities of the Group following the movements in exchange rates of the selected currencies to the detriment of the Group as at 31 December 2022 (in thousands of EUR):

	<i>Present value of exchange rate</i>	<i>Exchange rate in sensitivity scenario</i>	<i>Bank's position in the respective currency</i>	<i>Economic loss of the Bank for a given scenario with an impact on equity</i>
HUF	400.8700	380.8265	(4 149)	(207)
USD	1.0666	1.1199	3 257	(163)
CZK	24.1160	25.3218	1 282	(64)
GBP	0.8869	0.8426	(1 215)	(61)
PLN	4.6808	4.9148	785	(39)
Total			(40)	(534)

The table below shows the Group's sensitivity to movements in the interest rate assuming negative movement of the yield curve to the detriment of the Group by 100 basis points.

Notes to the Consolidated Financial Statements for the Year Ended 31 December 2023

Prepared in Accordance with International Financial Reporting Standards
as Adopted by the European Union (in thousands of EUR)

Change in the present value of assets and liabilities of the Group following the change in the interest rate for the selected currencies as at 31 December 2023 (in thousands of EUR):

	<i>Yield curve shift</i>	<i>Group's loss from yield curve shift</i>
EUR	+100 BPV	(63 967)
USD	-100 BPV	(975)
Total		(64 941)

Change in the present value of assets and liabilities of the Group following the change in the interest rate for the selected currencies as at 31 December 2022 (in thousands of EUR):

	<i>Yield curve shift</i>	<i>Group's loss from yield curve shift</i>
EUR	+100 BPV	(43 707)
USD	-100 BPV	(127)
Total		(43 834)

As at 31 December 2023, the Group's exposure position in the Trading Book to equity price risk was nil; as at 31 December 2022, it was also nil. The Group, therefore, does not recognise this exposure position to equity price risk.

As at 31 December 2023, the Group's exposure position to commodities in the Trading Book was insignificant; as at 31 December 2022, the Group's position was also insignificant. Therefore, the Group does not recognise this exposure position to commodity risk.

In the market risk sensitivity analysis, the Group uses the negative development of exchange rates, yield curves movements, and a decrease in share prices. In the opposite scenario, the Group would recognise a profit instead of a loss in approximately the same amount.

Liquidity risk

Liquidity risk is the risk that the Group may not be able to fulfil its obligation to settle its liabilities when they fall due.

The Group wishes to maintain its solvency, i.e. its ability to meet its financial liabilities in a duly and timely manner, and to manage its assets and liabilities so as to ensure continuous liquidity. Liquidity management is the responsibility of the Assets and Liabilities Committee (ALCO), the Treasury department and Capital Markets division. At its regular meetings, the ALCO assesses the Group's liquidity and, subsequently, makes decisions based on the current state of affairs.

The Group is exposed to daily calls on its available cash resources from overnight deposits, current accounts, maturing deposits, loan draw-downs, guarantees, and from margin and other calls on cash settled derivatives. The Group does not maintain cash resources to meet all of these needs as experience shows that a minimum level of reinvestment of maturing funds can be predicted with a high level of certainty. The Group sets limits on the minimum proportion of maturing funds available to meet such calls and on the minimum level of interbank and other borrowing facilities that should be in place to cover withdrawals at unexpected levels of demand.

Deposits from customers are one of the primary funding sources for the Group. Although the terms of the majority of the deposits permit customer withdrawals with no advance notice, the actual balances maintained by customers provide a stable source of funding.

The Market Risk Management department monitors the Group's liquidity on a daily basis and reports on its development. Information on the liquidity position is reported to the ALCO at least once a month. The Treasury department submits reports on the Group's structure of assets and liabilities at regular meetings of the ALCO, and proposes the size and structure of the portfolio of highly-liquid securities held strategically for the following period subject to monitoring. The Treasury department informs the ALCO about new investments in securities on a regular basis.

The Group monitors short-, medium- and long-term liquidity risk by developing a liquidity and crisis liquidity gap (3 scenarios: market crisis, currency crisis and combined scenario) compiled on the basis of the rules and assumptions set by the RBI parent company. Internal liquidity limits are approved by the Group's management through an annual update of the liquidity management strategy. The Group also monitors the regulatory coefficients set by the NBS and the ECB and the coefficients and limits set internally and/or by the RBI parent company.

The Group's liquidity position reflecting the current contractual remaining maturity of assets and liabilities as at 31 December 2023:

1) The amounts of current accounts and passbooks are recognised under the estimated maturity model, which calculates the distribution of such behavioural cash flows as part of liquidity. The model is based on the Geometric Brownian Motion (GBM) and is reviewed annually. The main component of the model is the historical time series of observations. During the assessment process, the performed observations are compared to the modelled observations. In the event of a larger deviation, assumptions and/or model parameters should be reviewed. Based on the results of the review, new assumptions and/or new model parameters calculated on the basis of historical observations should be used for the model.

2) The off-balance sheet position includes receivables and payables from spot transactions and financial derivative transactions where the underlying instrument is replaced, from future loans and borrowings, guarantees and letters of credit, and option delta equivalents.

3) Positive/negative fair value of financial derivatives held for trading and receivables/payables from hedging derivatives are classified as not specified in line with the National Bank of Slovakia Report on the Current and Estimated Remaining Maturity of Assets and Liabilities.

Notes to the Consolidated Financial Statements for the Year Ended 31 December 2023

Prepared in Accordance with International Financial Reporting Standards
as Adopted by the European Union (in thousands of EUR)

Operational risk

Operational risk is the risk arising from inappropriate or incorrect procedures, human error, failures of the Group's systems or from external events. Operational risk includes legal risk, the risk arising primarily from a failure to enforce contracts, risk of unsuccessful legal disputes or court rulings with adverse impacts on the Group. As in the case of other types of risk, operational risk is managed by applying the standard principle including the separation of functions in risk management and controlling.

For the purposes of the capital requirement calculation to cover operational risk, the Group uses the "Standardised Approach" according to the requirements of BASEL II and the Banking Act. Under the Standardised Approach, the Group's activities and the related Gross Income are divided into eight business lines. Gross Income for each business line is represented by a general indicator serving as a representative for a range of business activities, thereby representing an operational risk rate for each business line. The capital to cover operational risk is calculated as net interest income and net interest-free income multiplied by an assigned β factor for each business line separately. The total capital requirement equals the sum of eight partial requirements for each business line and the average for the past three years.

To identify operational risk, the Group uses a three-dimensional model compound of risk categories, business functions, and business lines (Risk Management Association methodology). Operational risk loss data collection covers the collection of all operational losses by individual risk categories of this three-dimensional model.

The Group focuses primarily on process quality improvement and operational risk mitigation actions. The essential assumption of set goals is based on operational risk awareness and the Group's operational risk culture.

The Group also uses other tools to manage operational risk such as Key Risk Indicators and Self-Assessment and operational risk scenarios, which are designated to identify, analyse and monitor areas with increased operational risk.

The Group is also active in preparing Business Continuity plans. The plans aim to minimise impacts of unexpected events on the Group's operation.

Other risks

Simultaneously, in terms of implementing an internal process of capital adequacy determination, the Group monitors and develops quantification and management methods aimed at other risks.

Basel III

In connection with the adopted new legislative rules known as Basel III (by Regulation No 575/2013 of the European Parliament and of the Council of 26 June 2013 on prudential requirements for credit institutions and investment firms, which is directly applicable in all member states of the EU with effect from 1 January 2015, and Directive 2013/36/EU of the European Parliament and of the Council of 26 June 2013 on access to the activity of credit institutions and the prudent supervision of credit institutions and investment firms), the Group has prepared and applies these stricter rules in capital adequacy and liquidity; the Group ensured smooth compliance with these rules while maintaining the required level of risk appetite, portfolio performance and return on capital.

The concepts, methodology, and documentation for the activities in the Basel III Project are prepared in close co-operation with Raiffeisen Bank International AG while reflecting the local specifics of the Group and the entire bank environment.

The Group's intention is to implement an advanced approach to the management, quantification, and reporting of individual risks as soon as possible. As at the reporting date, for credit risk, the Group used the standardised approach and the internal rating approach for calculating the regulatory capital requirement to cover credit risk. The general approach of internal ratings is applied by the Group for the bulk of the non-retail portfolio. For the bulk of the retail portfolio, the advanced internal ratings-based approach is applied.

The IRB approach is used for central governments and central banks, institutions, corporate entities (including project financing, insurance companies, leasing companies and financial institutions) as of 1 January 2009, as of 1 April 2010 for the retail part of the portfolio and as of 1 December 2013 for the SME portfolio. In connection with the approved IRB approach, the Group continuously reassesses the performance of its rating models and subsequently ensures the required performance of the models.

Notes to the Consolidated Financial Statements for the Year Ended 31 December 2023

Prepared in Accordance with International Financial Reporting Standards
as Adopted by the European Union (in thousands of EUR)

The Group modifies and supplements its methodology and process procedures for Pillar 2 (internal process of capital adequacy assessment) in the context of its risk appetite and performed business activities. As part of this process, pursuant to the approved methodology, the Group performs a risk relevance and materiality assessment, a risk quantification and an assessment with respect to the Group's capital and subsequent reporting on a regular basis. The process of capital allocation, which is closely linked with budgeting, forms an integral part.

An important aspect of the Group's capital management is a thorough prediction of capital adequacy developments and its stress testing to eliminate the effects of unforeseen events and for efficient capital planning. Information on the Group's individual risks and capital are reflected in the management of the Group and its business strategies to achieve an optimum compromise between the mitigation of individual risk types and augmentation of the market share, profit and return on capital. Major changes introduced by the Group with respect to the changing economic development included, for instance, implementing comprehensive stress testing for Pillar 1 risks as well as for other risk types identified by the Group as material or partial optimisation of parameter estimates for the calculation of the own funds requirement for the retail portion of the portfolio. At the same time, the Group actively uses the results of the stress testing in capital planning and capital management.

OTHER DISCLOSURES

42. Contingent liabilities and other off-balance sheet items

The Group reports the following contingent liabilities and other off-balance sheet items:

	2023	2022
Contingent liabilities:	721 384	605 215
From guarantees	342 374	282 312
From other guarantees	360 288	319 540
From letters of credit	18 722	3 363
Commitments:	3 297 321	3 367 532
From irrevocable loan commitments:	983 002	1 224 549
<i>Up to 1 year</i>	464 854	263 915
<i>More than 1 year</i>	518 148	960 634
From revocable loan commitments:	2 314 319	2 142 983
<i>Up to 1 year</i>	601 176	1 106 437
<i>More than 1 year</i>	1 713 143	1 036 546
Total	4 018 705	3 972 747

Off-balance sheet commitments from guarantees represent obligations that the Group will make payments in the event that a customer cannot fulfil its obligations to third parties.

A documentary letter of credit is an irrevocable undertaking of the issuing Group acting at the request of a customer (buyer) to make a payment to the beneficiary (seller) or to pay or accept bills of exchange drawn by the beneficiary upon the submission of the stipulated documents, provided all terms and conditions of the letter of credit are met. The documentary letters of credit are collateralised depending on the creditworthiness of the customer and on the same basis as guarantees or loans.

The primary purpose of unused credit facilities (loan commitments) is to ensure that funds are available to a customer as required. Commitments to grant loans issued by the Group represent issued loan commitments and the unused part of approved overdraft loans.

The risk associated with off-balance sheet financial commitments and contingent liabilities is assessed similarly as for loans to customers, taking into account the financial position and activities of the entity to which the Group issued the guarantee and taking into account the collateral obtained. As at 31 December 2023, the Group created provisions for these risks amounting to EUR 10 333 thousand (as at 31 December 2022: EUR 12 470 thousand), Note 30 "Provisions". As at 31 December 2023, other contingent liabilities amounted to EUR 420 thousand (as at 31 December 2022: EUR 105 thousand).

An overview of the quality of contingent liabilities and other off-balance sheet items is stated in Note 41 "Risk report".

Notes to the Consolidated Financial Statements for the Year Ended 31 December 2023

Prepared in Accordance with International Financial Reporting Standards
as Adopted by the European Union (in thousands of EUR)

Litigations and claims

In the ordinary course of business, the Group is subject to legal actions and complaints. Each dispute is subject to special monitoring and regular re-assessment as a part of the Group's standard procedures. In the event of significant disputes the Group cooperates with external lawyers submitting the changes in dispute to the Board of Directors on a regular basis. In 2023, the Group was not subject to any new significant dispute and some long-term disputes developed in favour of the Group. It is the policy of the Group not to disclose details of ongoing legal actions in cases where such disclosure might be prejudicial. This policy is in line with wording of IAS 37.92.

The most serious legal proceedings concerns agreed credit facilities and a contract breach allegedly committed by the Group by failing to execute payment transfer orders and renew credit facilities, which ultimately allegedly led to the termination of the customer's business activities and two related lawsuits for damages and lost profit. In the former case, the first and second instance courts rejected the claim made and the court of appeal dismissed an appeal. In the latter case, the court of first instance dismissed the action. In the Group's view, both actions are speculative.

As at 31 December 2023, the Group examined the status of legal disputes, taking into account the amount of claims made and IFRS requirements as regards the recognition of provisions and contingent liabilities in the amount of EUR 4 100 thousand (31 December 2022: EUR 3 669 thousand), which are included in the off-balance sheet accounts.

If it is probable that the Group will be required to settle a claim and a reliable estimate of the amount can be made, the Group creates provisions. The total provision for legal disputes amounts to EUR 22 566 thousand (31 December 2022: EUR 22 362 thousand), Note 30 "Provisions". To determine the amount of provisions, the Group uses professional judgement and relies on advice from legal counsel, taking into account all the circumstances and all available factors, including the application of publicly available information on disputes in the Slovak Republic from the past. For significant accounting estimates, see Note II.

43. Leases as a lessee (IFRS 16)

The right-of-use asset (under IFRS 16) is part of the Group's tangible assets. Its amount and movement, along with the amount and movement of accumulated depreciation of the right-of-use asset, are recognised under non-current tangible assets in "Right-of-use assets".

Depreciation of the right-of-use asset is included in the general administrative expenses under "Depreciation and amortisation of non-current tangible and intangible assets", where they are separately allocated: "of which the right-of-use assets".

The amount of interest expense on lease liabilities is disclosed in Note 1 "Net interest and dividend income", separately reported under "Interest expense: lease liability".

The following table provides an overview of lease costs under IFRS 16, which are part of the general administrative expenses under "Other administrative expenses: Other expenses" for which the Group applied an exception in accordance with IFRS 16.22 to 49:

	2023	2022
Lease costs:	(729)	(708)
Short-term lease	(69)	(57)
Lease of low-value tangible assets	(660)	(651)

The following table provides an analysis of the maturity of contractual undiscounted cash flows from lease liabilities:

	2023	2022
Undiscounted lease liabilities:	46 176	49 611
Less than 1 year	11 080	10 635
1 to 5 years	27 789	27 795
More than 5 years	7 307	11 181

44. Related parties

Related parties of the Bank comprise:

- a) RBI – Raiffeisen Bank International, the parent company;
- b) The RBI Group comprises subsidiaries and associates that are members of the parent company's (Raiffeisen Bank International) Group owned directly or indirectly via its subsidiaries, except for subsidiaries and associates owned by the Bank, which are recognised separately;
- c) The statutory bodies and the Supervisory Board are persons who are members of the key management personnel of the Bank or its parent company;
- d) Other related parties are close family members of the members of the Bank's management personnel – the Board of Directors and the Supervisory Board. Other related parties also include other related individuals with a relationship with the Bank.

In considering each possible related party relationship, attention is directed to the substance of the relationship and not merely the legal form. In the ordinary course of business, the Group enters into a number of banking transactions with related parties. Bank transactions were carried out under normal conditions and relationships at market prices.

Assets, liabilities, commitments, issued and received guarantees as regards related parties as at 31 December 2023:

Related parties*	RBI	RBI Group	Statutory bodies and Supervisory Board**	Other related parties	Total

Total	(147 219)	(2 224)	(5 172)	55	(154 560)

* Groups of related parties under the IAS 24 definition

**Wages and bonuses to the members of the Board of Directors, Supervisory Board and procura-holders

In 2023 and 2022, the following remuneration was paid to the members of the Parent Company's statutory body:

	2023	2022
Short-term employee benefits	3 259	3 258
Post-employment benefits	-	-
Other long-term benefits	-	-
Termination benefits	-	-
Share-based payment benefits	-	-
Total	3 259	3 258

The members of statutory body own preference shares of Tatra Banka. The terms of the preference shares are described in Note 33 "Equity".

45. Average number of employees

The average number of Group's employees was as follows:

	2023	2022
Group employees	3 482	3 463
Of which: Members of the Board of Directors	7	7
Total	3 482	3 463

Notes to the Consolidated Financial Statements for the Year Ended 31 December 2023

Prepared in Accordance with International Financial Reporting Standards
as Adopted by the European Union (in thousands of EUR)

46. Capital management

For capital management purposes, the Group defines regulatory capital, capital adequacy, internal capital and economic capital.

Regulatory capital is the capital defined by the capital adequacy rules under Pillar 1. When quantifying regulatory capital, the Group complies with current legislation, defining its structure and minimum amount.

Regulatory capital, referred to as own funds, consists of Tier 1 equity, additional Tier 1 capital and Tier 2 capital. Regulatory capital is used to cover credit risk from Banking Book activities, counterparty risk related to activities in the Trading Book, market risks (position risk for activities in the Trading Book, foreign exchange risk and commodity risk from all trading activities), settlement risk, CVA risk, OTC derivative and operational risk.

Capital adequacy is monitored with regard to Tier 1 regulatory capital expressed as its percentage of the total risk exposure, and with regard to Tier 1 capital expressed as its percentage of the total risk exposure and as own funds expressed as a percentage of the total risk exposure. The methodology for its quantification is regulated. Additional information on the Group's capital requirement is disclosed in Note 41 "Risk report", part "BASEL III".

In 2023, the Group complied with the level of capital adequacy defined for the Group.

Internal capital is the Group's own funds that the Group maintains and places internally to cover its risks. The internal capital components are made up of capital items supplemented by other additional resources available to the Group. The Group's objective is to maintain the required amount of internal capital. In 2023, the Group met this objective.

Economic capital represents the necessary capital or relates to the Minimum Capital Requirement to cover unexpected losses from risks internally defined as material and quantified by the Group. Economic capital thus ensures the financial stability of the Group at the level of reliability corresponding to the Group's credibility. The use of economic capital knowledge is important to the Group, eg for active portfolio management, valuation, controlling etc.

An additional own resources requirement, the so-called "Pillar 2 requirement" (P2R), is designed to cover risks that are not covered or are not sufficiently covered by the first pillar own funds requirement. Its value for the Parent Company was determined by bank supervision based on the SREP assessment from 1 January 2020 at 1.5%.

The below table provides the outline of the Group's regulatory capital structure and the capital adequacy ratios:

	2023	2022
Original own funds (TIER 1)	1 356 113	1 244 259
Paid-up share capital	64 326	64 326
(-) Treasury shares	(64)	(136)
Share premium	298 654	298 447
(-) Share premium – treasury shares	(1 134)	(2 271)
Funds from profit and other capital reserves	15 676	15 366
Other specific items of original own funds	982 128	877 403
Other temporary adjustments to Tier 1 capital	(3 473)	(8 876)
Additional own funds (TIER 1) (AT1 capital)	100 000	100 000
(-) Items deductible from the original own funds	(52 007)	(59 835)
(-) Intangible assets	(39 132)	(46 960)
(-) Goodwill	(12 875)	(12 875)
Additional own funds (TIER 2)	161 295	165 610
Subordinated debts	135 000	135 000
IRB excess of provisions over expected losses eligible	26 295	30 610
(-) Items deductible from the original and additional own funds	(5 697)	(9 329)
(-) From the original own funds	(5 697)	(9 329)
Total own funds	1 559 704	1 440 705

Notes to the Consolidated Financial Statements for the Year Ended 31 December 2023

Prepared in Accordance with International Financial Reporting Standards
as Adopted by the European Union (in thousands of EUR)

Adequacy of own funds (%)	19.39	18.66
Own funds	1 559 704	1 440 705
Risk-weighted assets (RWA)	8 042 964	7 721 787
RWA from receivables recorded in the Banking Book	7 152 203	6 914 975
RWA from positions recorded in the Trading Book	14 762	9 085
RWA from operating risk – standardised approach	875 999	797 727

47. Post-balance sheet events

There were no significant events between the balance sheet date and the date of authorisation of these financial statements that would require an adjustment or additional disclosure.

48. Approval of the separate financial statements

The annual consolidated financial statements for the immediately-preceding reporting period (as at 31 December 2022) were signed and authorised for issue on 17 February 2023.

The financial statements were signed and authorised for issue on 19 February 2024 by the following bodies/persons:

a) Statutory body

Michal Liday
Chairman of the Board of Directors
and Chief Executive Officer

Oliver Pichler
Member of the Board of Directors

b) Person responsible for the bookkeeping and the preparation of the financial statements

Ľubica Jurkovičová
Accounting, Reporting
and Tax Director
